Disinfectant, Detergent
and
Odor Counteractant
for
Hospital and Institutional Use

1/2 oz. PREMEASURED

A33
DRY

ACTIVE INGREDIENTS

- n-Alkyl (60% C₁₂-30% C₁₅-5% C₁₆-5% C₁₇) 5.8%
- dimethyl benzyl ammonium chlorides
- n-Alkyl (63% C₁₂-32% C₁₅) 5.8%
- dimethyl ethylbenzyl ammonium chlorides
- Essential oils 1.6%
- Tetrasodium ethylene diamine tetraacetate 4.8%

INERT INGREDIENTS 82.0%

DANGER: Keep Out of Reach of Children. See other precautions on back panel. Store in cool, dry place. Do not handle packets with wet hands.

DO NOT REMOVE PACKETS BEFORE USE.

Do not re-use container. Destroy and dispose of properly.

Net Contents: 96 water soluble packets
each containing 1/2 oz. of product. Net Wt. 3 lbs. avoirdupois

A-33 Dry is more than a fine detergent. It disinfects, and kills odors too.
DETERGENT - Biodegradable nonionic detergents, synergized with alkaline builders. This gives the wetting, penetrating, suspending and emulsifying action you need for even the most difficult soils. A-33 Dry's low foaming action leaves spot-free surfaces.

DISINFECTANT - Used as directed (1/2 oz. to 1 gal.), A-33 Dry provides approx. 450 ppm of one of the most potent germicides commercially available enhanced by synergizing builders which inactivate metallic ions to increase effectiveness.

VIRUCIDE - on environmental surfaces A-33 Dry kills viruses such as: Influenza A₁ (Aichi), Parainfluenza I (Sendai), Herpes Simplex, Vaccinia, Canine Distemper and Feline Pneumonitis.

ODOR-COUNTERACTANT - A-33 Dry actually counteracts odors to leave the area smelling fresh and clean. That's Airkem's famous Air Freshened Effect. (TM)

DIRECTIONS - Put one packet in a wash bucket for each gallon of water used. Add the proper amount of warm water. Stir gently for a uniform solution. One container (96 packets) makes 96 gallons of solution. Apply solution with mop, sponge, cloth, scrubber or sprayer. Remove solution and the entrapped soil with a clean, wet mop, sponge or wet vacuum pickup.

USES - A-33 Dry is intended primarily as a heavy duty cleaner where positive disinfection and odor counteraction are required. It is unexcelled for cleaning hard surfaces such as porcelain, glass, tile, stainless steel, chrome, vinyl, linoleum, asphalt or rubber.

Minimum A.O.A.C. Use Dilution Confirmation at 20°F.

Salmonella choleraesuis	1:256	Escherichia coli	1:256
Staphylococcus aureus	1:256	Proteus vulgaris	1:256
Trichophyton interdigitale	1:256	Serratia marcescens	1:256
Pseudomonas aeruginosa	1:256	Shigella flexneri Type II	1:256
		Klebsiella spp.	1:256

1 container (96 packets) makes 96 gallons of solution.

DANGER: Corrosive. Causes eye damage and severe skin irritation. Do not get loose powder in eyes, on skin or on clothing. Harmful if swallowed. Avoid contamination of food. Do not open packets; place directly into bucket. Avoid breathing sprayed mist.

DO NOT REMOVE PACKETS BEFORE USE.

FIRST AID:
In case of contact, immediately flush eyes or skin with plenty of water for at least 15 minutes. For eyes, call a physician. Remove and wash contaminated clothing before re-use.

If swallowed, drink promptly a large quantity of milk, egg whites, gelatin solution or if these are not available, drink large quantities of water. Call a physician immediately.

NOTE TO PHYSICIAN:
Probable mucosal damage may contraindicate the use of gastric lavage. Measures against circulatory shock, respiratory depression and convulsion may be needed.
