

A-33 Dry is more than a line detergent. It disinfects and kills odors too.

**DETERGENT** — Biodegradable, nonionic detergents synergized with alkaline builders. This gives the wetting, penetrating, suspending and emulsifying action you need for even the most difficult soils. A-33 Dry's low foaming action leaves spot-free surfaces.

**DISINFECTANT** — Used as directed (1½ ozs. to 3 gals.) A-33 Dry provides approx. 450 ppm of one of the most potent germicides commercially available, enhanced by synergizing builders which inactivate metallic ions to increase effectiveness.

**VIRUCIDE** — on environmental surfaces A-33 Dry kills viruses such as: Influenza A<sub>1</sub> (Aichi), Parainfluenza 1 (Sendai), Herpes Simplex, Vaccinia, Canine Distemper and Feline Pneumonitis.

**ODOR-COUNTERACTANT** — A-33 Dry actually counteracts odors to leave the area smelling fresh and clean. That's Arkem's famous Air-Freshened Effect (TM).

**DIRECTIONS** — Put one packet in a wash bucket for each three gallons of water used. Add the proper amount of warm water, stir to form a uniform solution. One container (40 packets) makes 120 gallons of solution. Apply solution with mop, sponge, cloth, scrubber or sprayer. Remove solution and the entrapped soil with a clean, wet mop, sponge or wet vacuum pickup.

**USES** — A-33 Dry is intended primarily as a heavy-duty cleaner where positive disinfection and odor counteraction are required. It is recommended for cleaning hard surfaces such as porcelain, glass, tile, stainless steel, chrome, brass, aluminum, asphalt or rubber.

Minimum A.O.A.C. Use Duration Confirmation at 20°F

**DANGER:** Corrosive. Causes eye damage and severe skin irritation. Do not get loose powder in eyes, on skin or on clothing. Harmful if swallowed. Avoid contamination of food. Do not open packets; place directly into bucket. Avoid breathing sprayed mist.

**FIRST AID:** **DO NOT REMOVE PACKETS BEFORE USE.**

In case of contact, immediately flush eyes or skin with plenty of water for at least 15 minutes. For eyes, call a physician. Remove and wash contaminated clothing before re-use.

If swallowed, drink promptly a large quantity of milk, egg whites, gelatin solution or if these are not available, drink large quantities of water. Call a physician immediately.

**NOTE TO PHYSICIAN:**

Probable mucosal damage may contraindicate the use of gastric lavage. Measures against circulatory shock, respiratory depression and convulsion may be needed.

### ACTIVE INGREDIENTS

|                                                                                                |       |
|------------------------------------------------------------------------------------------------|-------|
| n-Alkyl (60% C <sub>12</sub> , 30% C <sub>14</sub> , 5% C <sub>16</sub> , 5% C <sub>18</sub> ) | 5.8%  |
| dimethyl benzyl ammonium chlorides                                                             | 5.8%  |
| n-Alkyl (68% C <sub>12</sub> , 32% C <sub>14</sub> )                                           | 1.0%  |
| dimethyl ethylbenzyl ammonium chlorides                                                        | 1.0%  |
| Essential oils                                                                                 | 0.5%  |
| Tetrasodium ethylenediamine tetraacetate                                                       | 85.9% |
| Sodium Carbonate                                                                               |       |

### INERT INGREDIENTS

**DANGER:** Keep Out of Reach of Children. See other precautions on back panel. Store in cool, dry place. Do not handle packets with wet hands.

**DO NOT REMOVE PACKETS BEFORE USE.**

Do not re-use container. Destroy and dispose of properly.
