Diazinon (O,O-Diethyl-O-[2-isopropyl-6-methyl-4-pyrimidinyl] phosphorothioate)	0.500%	0.500%
Pyrethrins	0.025%	0.025%
Piperonyl butoxide technical consists of		
0.210% (butyl carbitol) (6-propyl piperonyl ether and 0.052% related compounds)	0.262%	0.262%
• INERT INGREDIENTS	99.213%	99.213%
• Contains Petroleum Distillate		

NET WT. 13 OZ.

DIRECTIONS: It is a violation of Federal Law to use this product in a manner inconsistent with its labeling. **TO OPERATE:** Remove protective cap. Point nozzle toward area to be sprayed and press down. Treated surfaces have a residual killing action for four to six weeks against insects. If reinfestations occur due to migrations or removal of the insecticidal film by water or wear, repeat treatment.

RESIDUAL ACTION: One spraying of Four Aces lasts 4 to 6 weeks. When used as directed this spray leaves an invisible film that continues to kill carpenter ants, hornets, wasps, earwigs, bees, flies, gnats, no-see-ums, ants, mosquitoes, spiders and aids in the prevention of maggots in garbage pails.

INDOOR USE: CARPENTER ANTS, ROACHES, ANTS, WATERBUGS, SILVERFISH, SPIDERS, CRICKETS: Spray heavily into all cracks, around baseboards and other places where these insects hide. Also spray under and behind baseboards, refrigerators, sinks, stoves, etc. Spray other localized areas infested with these pests. Repeat treatment as required. **SPIDERS:** Spray spiders and their immediate vicinity thoroughly. Do not spray inside cabinets where food is stored. Discard infested food packages. Do not spray across top of stove or near pilot lights. Do not use this product indoors as an overall surface spray or as a space spray. Take care not to introduce this product into the air during application. Use only in well ventilated areas. Do not apply where children are likely to frequently contact treated surfaces. Do not treat pets or plants with this product. Remove pets and cover fish bowls before spraying. Do not apply when other persons are in the immediate area. Do not allow children or pets in treated areas until spray has dried. Do not apply in areas, surfaces or utensils which will contact food or feed. Exposed food should be covered or removed during application. All food processing surfaces and utensils should be covered during application or thoroughly washed with soap and water before use. Do not use in edible product areas of food processing plants, restaurants, or other places where food is commercially prepared or processed. Do not spray floors, wallcoverings, ceilings without first testing for staining.

PRECAUTIONARY STATEMENTS HAZARDS TO HUMANS AND DOMESTIC ANIMALS

CAUTION - Harmful: If swallowed inhaled or absorbed through skin. Avoid contact with skin, eyes, or clothing. Avoid breathing vapor or spray mist. Do not smoke while applying this product. Wash thoroughly with soap and water after handling and before eating or smoking. May cause contact sensitization following repeated contact with skin. Avoid repeated contact with skin. If sensitization reactions result, consult a physician. Remove contaminated clothing and wash before reuse. Avoid contamination of food and feed. Do not use on household pets or humans. Remove pets from area and remove or cover fish bowls before spraying. Do not allow children or pets in treated areas until sprayed surfaces have dried.

Statement of Practical Treatments - If swallowed: Call a physician or Poison Control Center immediately. **DO NOT INDUCE VOMITING UNLESS NO OTHER TREATMENT IS AVAILABLE.** Vomiting may cause aspiration pneumonia. If it is necessary to induce vomiting, give victim one or two glasses of water and insert finger in back of throat. Do not induce vomiting or give anything by mouth if person is unconscious or convulsing. **IF INHALED:** Remove victim to fresh air and apply artificial respiration if indicated. Get medical attention. **IF IN EYES:** Rinse eyes with plenty of water and call a physician immediately. **IF ON SKIN:** Wash promptly with plenty of soap and water. Get medical attention. **Note to Physician:** This product contains an organophosphate insecticide. If symptoms of cholinesterase inhibition are present, atropine sulfate by injection is antidotal. 2-Pyrid is also antidotal and may be administered, but only in conjunction with atropine. This product contains petroleum distillate solvent which may present an aspiration hazard. Gastric lavage may be indicated if product was taken internally.

PHYSICAL AND CHEMICAL HAZARDS: EXTREMELY FLAMMABLE: Contents under pressure. Keep away from fire, sparks and heated surfaces. Do not puncture or incinerate container. Exposure to temperatures above 130°F may cause bursting.

ENVIRONMENTAL HAZARDS: This pesticide is highly toxic to birds, fish, and other wildlife. Birds, especially waterfowl, feeding or drinking on treated areas may be killed. Keep out of lakes, streams, ponds, tidal marshes, and estuaries. Do not apply directly to water or to area where surface water is present. Do not contaminate water by disposal. This pesticide is highly toxic to bees exposed to direct treatment or to residues on blooming plants, where they feed. Do not apply this product to or allow it to drift to food crops or any desirable vegetation at any time.

STORAGE AND DISPOSAL: **STORAGE:** Store in a cool, dry area away from heat or open flame. **DISPOSAL:** Wrap container and dispose of in trash. Do not puncture, compact or incinerate container. Buyer assumes all risks of use, storage or handling of this material not in strict accordance with directions given hereon.
