

APIA

PRECAUTIONARY STATEMENTS

For external use only. Harmful if swallowed. Avoid breathing spray mist. Will cause eye irritation. Do not apply to eyes and mouth and do not apply to the hands of young children. Do not spray directly on face. Do not apply over cuts, wounds, or irritated skin. Do not expose treated skin or clothing to fire, sparks or flame until liquid has evaporated. Do not allow children to rub eyes if hands have been treated. After returning indoors, wash treated skin with soap and water. Wash treated clothing.

PHYSICAL AND CHEMICAL HAZARDS

Flammable - keep away from heat, sparks, and open flame. Contents under pressure. Do not puncture or incinerate container. Temperatures above 130° may cause bursting.

FIRST AID

IF SWALLOWED - Call a physician or Poison Control center.

IF ON SKIN - May cause skin reactions in rare cases. If so, wash thoroughly with soap and water. Get medical attention if irritation persists.

IF IN EYES - Flush with plenty of water. Get medical attention if irritation persists.

DISPOSAL - Do not re-use, empty container. Wrap container and put in trash collection.

EPA Est. No. 5693-MA-1
EPA Reg. No. 3546-39

DIRECTIONS FOR USE

It is a violation of Federal law to use this product in a manner inconsistent with its labeling.

Maximum strength SPORT provides long lasting protection. To repel ticks, mosquitoes, biting flies, black flies, chiggers, gnats, no-see-ums and fleas, spray 6-7 inches from skin or clothing with a slow sweeping motion. Use just enough repellent to cover exposed skin and/or clothing. Do not use under clothing. Avoid over-exposure. Frequent reapplication and saturation is unnecessary for effectiveness. Avoid eyes and lips. To apply to face, spray on hands and rub on. Repeat as needed. To repel ticks and chiggers, also apply lightly to shoe tops, socks, and around openings in clothing. Apply 6 to 7' from skin. Do not spray in enclosed areas.

Avoid contact with plastics, eyeglass frames, watch crystals, and such fabric as acetate, rayon and spandex.
