3546-40

Date of Issuance

AU6 20 2003

NOTICE OF PESTICIDE:

<u>x</u> Registration

___ Reregistration

Name of Pesticide Product:

Shoo-Fly Hornet Wasp Jet Bomb II

Term of Issuance: Conditional

(under FIFRA, as amended)

Name and Address of Registrant (include ZIP Code):

Lynwood Laboratories, Inc.

945 Great Plain Avenue

Needham, MA 02192

Note: Changes in labeling differing in substance from that accepted in connection with this registration must be submitted to and accepted by the Registration Division prior to use of the label in commerce. In any correspondence on this product always refer to the above EPA registration number.

On the basis of information furnished by the registrant, the above named pesticide is hereby registered/reregistered under the Federal Insecticide, Fungicide and Rodenticide Act.

Registration is in no way to be construed as an endorsement or recommendation of this product by the Agency. In order to protect health and the environment, the Administrator, on his motion, may at any time suspend or cancel the registration of a pesticide in accordance with the Act. The acceptance of any name in connection with the registration of a product under this Act is not to be construed as giving the registrant a right to exclusive use of the name or to its use if it has been covered by others.

This product is conditionally registered in accordance with FIFRA sec. 3(c)(7)(A) provided that you:

1. Submit and/or cite all data or other material required for registration/reregistration of your product under FIFRA sec. 3(c)(5) or FIFRA sec. 4 when the Agency requires all registrants of similar products to submit such data.

We note a change in product name to "Shoo-Fly Hornet Wash Jet Bomb II. This will be product name of record. If you want to also use "Shoo-Fly Hornet II you will need to submit a request for amendment under <u>Notification</u>

- 2. Make the following label changes:
 - a. Change 25ft to 20ft throughout the label. This is the distance claimed on your draft label plus the me-too product cited, EPA Reg. No. 73044-159.
- b. Delete carpenter bees, earwigs, flies, gnats, no-seeums, mosquitoes, spiders and "Aids in the prevention of maggots in garbage pails. These pests were not on the draft label nor the me-too product cited.
- c. Add "or served" to the statement ending, ". . . where food/feed is commercially prepared, processed or served."

Signature of Approving Official:	Date:
George T. LaRocca	i

- d. Add the phrase, "EPA Registration No.3546 -40."
- e. Submit two (2) copies of your final printed label before you release the product for shipment. Refer to the A-79 enclosure for a further description of final printed labeling.

If these conditions are not complied with, the registration will be subject to cancellation in accordance with FIFRA sec. 6(e). Your release for shipment of the product constitutes acceptance of these conditions.

A stamped copy of the label is enclosed for your records.

If you have any questions regarding this action, please contact Dr. William Sproat of my team at (703) 308-8587.

oder the Pederal Insechelde.

waniste and Rodenticulo Ast

unconded. for the preside

giornal under EPA Bes. No.

Do not allow children or pets into the treated area

Do not use in commercial food/feed handling establishments, restaurants or other sites where food/feed is commercially prepared or processed. Not for use in Federally inspected meat and pouttry plants.

TO OPERATE: Remove protective cap. Point nozzle toward area to be soraved and press down all the way for a long-distance jet stream up to 25 feet.

OUTDOOR USE: For best results spray in early morning or late evening when insect activity is minimal. Stand a safe distance from nest with wind at your back. Spray until nest is thoroughly saturated to kill the entire nest population, RESIDUAL ACTION will kill wasps and hornets returning to the nest. Wait at least 24 hours before removing the nest.

TO KILL: Hornets, wasps, carpenter bees, yellow jackets, under eaves, screens, patios, window frames cracks or holes in crevices or wherever insects are found, spray one to two seconds or until surfaces are moist but not to the point of run off. To prevent entrance of insects into the house, spray around points where insects enter such as outside plumbing, faucets, screens and surfaces, etc. and cracks or crevices in foundation as well as along sills and ledges. Apply only as a residual spray where insects alight, used as directed one spraying of Shoofly Hornet Jet Bomb leaves an invisible film that kills hornets, wasps, earwigs, bees, flies, gnats, no-seeums, ants mosquitoes, spiders and aids in the prevention of maggots in garbage pails.

Do not apply to pets or contaminate feed or food stuffs, dishes or utensits. AVOID spraying vegetation directly. Do not use this product on living decorative trees, shrubs, ornamental plants or other desirable vegetation.

Avoid spraying asphalt surfaces and shingles. Before spraying test spray on an inconspicuous area.
