FLYING INSECT KILLER

HIGHLY EFFECTIVE

EPA Registration Number 25-65-1
EPA EST. NO. 2505-334-1
Manufactured by
SPECIALIST IN INSECT CONTROL
P.O. BOX 797-497-500

NET WT. 14 OZ.

CONSTRUCTION SITES: In a 1/4 cup of water, mix 1/2 teaspoon of Flying Insect Killer with 1/2 cup of water. Spray thoroughly on all areas where flies are present. This mixture will keep flies from coming back for 14 days. Repeat every 7 days.

INDOOR USES: For house flies, fruit flies, and other common household pests. Mix 1/2 teaspoon of Flying Insect Killer with 1/2 cup of water. Spray thoroughly on all surfaces where flies are present. This mixture will keep flies from coming back for 14 days.

OUTDOOR USES: For mosquitoes, ticks, and other outdoor pests. Mix 1/2 teaspoon of Flying Insect Killer with 1/2 cup of water. Spray thoroughly on all areas where pests are present. This mixture will keep pests from coming back for 14 days.

FOR THE CONTROL OF ORNAMENTAL GARDEN INSECTS: For use on roses, geraniums, and other ornamental plants. Mix 1/2 teaspoon of Flying Insect Killer with 1/2 cup of water. Spray thoroughly on all plants. This mixture will keep insects from coming back for 14 days.

FOR THE CONTROL OF HOUSEHOLD INSECTS: For use on ants, spiders, and other household pests. Mix 1/2 teaspoon of Flying Insect Killer with 1/2 cup of water. Spray thoroughly on all surfaces. This mixture will keep insects from coming back for 14 days.

FOR THE CONTROL OF PESTS ON HOUSEHOLD PLANTS: For use on aphids, mealybugs, and other pests on indoor plants. Mix 1/2 teaspoon of Flying Insect Killer with 1/2 cup of water. Spray thoroughly on all plants. This mixture will keep pests from coming back for 14 days.

FOR THE CONTROL OF PESTS ON OUTDOOR PLANTS: For use on beet beetles, caterpillars, and other pests on outdoor plants. Mix 1/2 teaspoon of Flying Insect Killer with 1/2 cup of water. Spray thoroughly on all plants. This mixture will keep pests from coming back for 14 days.

FOR THE CONTROL OF PESTS ON TREES AND SHRUBS: For use on scale insects, aphids, and other pests on trees and shrubs. Mix 1/2 teaspoon of Flying Insect Killer with 1/2 cup of water. Spray thoroughly on all trees and shrubs. This mixture will keep pests from coming back for 14 days.

FOR THE CONTROL OF PESTS ON LAWNS: For use on grubs and other lawn pests. Mix 1/2 teaspoon of Flying Insect Killer with 1/2 cup of water. Spray thoroughly on all lawns. This mixture will keep pests from coming back for 14 days.

FOR THE CONTROL OF PESTS ON VEGETABLES: For use on aphids, beet beetles, and other pests on vegetables. Mix 1/2 teaspoon of Flying Insect Killer with 1/2 cup of water. Spray thoroughly on all vegetables. This mixture will keep pests from coming back for 14 days.

FOR THE CONTROL OF PESTS ON FRUITS: For use on aphids, beet beetles, and other pests on fruits. Mix 1/2 teaspoon of Flying Insect Killer with 1/2 cup of water. Spray thoroughly on all fruits. This mixture will keep pests from coming back for 14 days.

FOR THE CONTROL OF PESTS ON DECORATIVE PLANTS: For use on aphids, mealybugs, and other pests on decorative plants. Mix 1/2 teaspoon of Flying Insect Killer with 1/2 cup of water. Spray thoroughly on all decorative plants. This mixture will keep pests from coming back for 14 days.

FOR THE CONTROL OF PESTS ON HOUSEHOLD ANIMALS: For use on fleas, ticks, and other household pests on animals. Mix 1/2 teaspoon of Flying Insect Killer with 1/2 cup of water. Spray thoroughly on all animals. This mixture will keep pests from coming back for 14 days.

FOR THE CONTROL OF PESTS ON HOUSEHOLD SURFACES: For use on ants, spiders, and other household pests on surfaces. Mix 1/2 teaspoon of Flying Insect Killer with 1/2 cup of water. Spray thoroughly on all surfaces. This mixture will keep insects from coming back for 14 days.

FOR THE CONTROL OF PESTS ON HOUSEHOLD TEXTILES: For use on moths and other pests on textiles. Mix 1/2 teaspoon of Flying Insect Killer with 1/2 cup of water. Spray thoroughly on all textiles. This mixture will keep pests from coming back for 14 days.

FOR THE CONTROL OF PESTS ON HOUSEHOLD APPLIANCES: For use on ants, spiders, and other household pests on appliances. Mix 1/2 teaspoon of Flying Insect Killer with 1/2 cup of water. Spray thoroughly on all appliances. This mixture will keep insects from coming back for 14 days.

ACCEPTED
JUL - 3 2007
Under the Federal Insecticide, Fungicide, and Rodenticide Act, as amended, for the pesticide registered under EPA Reg. No. 3546-41
