bowl quick

CLEANS Bowl Quick clings and coats to clean even hard water scale, lime deposits and iron stains from bowl surfaces — even under the rim.
DISINFECTS: Bowl Quick kills most disease-producing bacteria found in toilet bowls and urinals. **BACTERICIDAL:** kills *Pseudomonas aeruginosa*, *Salmonella choleraesuis*, *Staphylococcus aureus*, *Escherichia coli*, *Shigella dysenteriae*.
FUNGICIDAL: kills *Trichophyton interdigitale*.
DEODORIZES: Bowl Quick deodorizes through germicidal and cleaning action which eliminates most odor-producing bacteria and fungi.

DIRECTIONS

1. Remove water from bowl by pushing over trap with swab.
2. Squirt product under rim and down sides; yellow color indicates complete coating of all surfaces.
3. Swab under rim and over inside surfaces; solution changes from yellow to blue helping to show when washing is complete.
4. Flush; rinse swab.

PRECAUTION: Do not use with chlorine bleach or other chlorine products—reaction produces chlorine gas. Handle carefully and use swab for scrubbing. Use only on vitreous fixtures. Do not use on sinks, bathtubs, shower stalls, or any enamelled surfaces. Before discarding, rinse empty container thoroughly with water. Will not harm plumbing or septic tanks.

POISON DANGER

CORROSIVE: Keep out of reach of children. May be fatal if swallowed. Do not breathe vapor or fumes. Produces chemical burns. Do not get in eyes, on skin, or on clothing.

ANTIDOTE: Internal—Call a physician immediately. Drink a teaspoonful or more of magnesia, chalk or small pieces of soap, softened with water in milk or raw eggwhite.

External—Eyes—Wash with water for 15 minutes. Get prompt medical attention.

Skin—Wipe off the acid gently, immediately flood the surface with water, using soap freely, then cover with moist magnesia or baking soda.
