Where to use Battle

Battle cleans and disinfects floors, walls and similar washable surfaces.

Battle is intended for use in public areas, patient areas and surgical areas of hospitals, convalescent and nursing institutions and other health care establishments.

Battle is also suitable for hotels, motels, schools and other establishments where both cleaning and disinfecting are desired.

How to use Battle

Battle is not intended to be used concentrated. For all disinfecting and general cleaning, including tuberculous areas, use 1/4 cup (2 ounces) of Battle per gallon of water. Apply with mop, sponge, brush, mechanical scrubbing machine or spray applicator bottle, completely wetting surface. No rinsing required. For extremely dirty surfaces use two applications to ensure disinfecting action.

WARNING:

Keep out of reach of Children

Product may cause eye damage or skin irritation. Do not get in eyes, on skin, or on clothing.

Avoid contamination of food.

FIRST AID: EYE CONTACT immediately flush eyes with plenty of water for at least 15 minutes. CALL A PHYSICIAN

SKIN CONTACT rinse exposed area thoroughly with plenty of water. Remove and wash contaminated clothing before re-use.

Where to use Battle

Battle is a phenolic germicide that really cleans! It is used in hospitals, schools, and other institutions for the disinfection of floors, walls, and other surfaces. It is also used for the disinfection of linens and other fabric items.

How to use Battle

Battle is used by diluting with water. The dilution rate depends on the surface to be cleaned. For floors, a dilution of 1 part Battle to 100 parts water is recommended. For walls and other surfaces, a dilution of 1 part Battle to 200 parts water is recommended.

WARNING:

Keep out of reach of Children

FIRST AID:

In case of contact with skin, wash with plenty of water. In case of contact with eyes, flush with plenty of water for at least 15 minutes. In case of contact with clothing, remove clothing immediately and wash with plenty of water.
