U.S. ENVIRONMENTAL PROTECTION AGENCY
Office of Pesticide Programs
Registration Division (R7505C)
401 "M" St., S.W.
Washington, D.C. 20460

EPA Reg. Number:
3573-64

Date of Issuance:
JULY 31, 1998
1998

NOTICE OF PESTICIDE:
 Registration
 Reregistration

Term of Issuance: Conditional

(under FIFRA, as amended)

Name of Pesticide Product:
Ultra Spic and Span

Name and Address of Registrant (include ZIP Code):

The Procter & Gamble Company
11530 Reed Hartman Highway
Cincinnati, OH 45241

Note: Changes in labeling differing in substance from that accepted in connection with this registration must be submitted to and accepted by the Agency prior to use of the label in commerce. All correspondence on this product always refer to this registration number.

On the basis of information furnished by the registrant, the above named pesticide is hereby registered/reregistration under the Federal Insecticide, Fungicide and Rodenticide Act.

Registration is in no way to be construed as an endorsement or recommendation of this product by the Agency. In order to protect health and the environment, the Administrator, on his motion, may at any time suspend or cancel the registration of a pesticide in accordance with the Act. The acceptance of any name in connection with the registration of a product under this Act is not to be construed as giving the registrant a right to exclusive use of the name or to its use if it has been covered by others.

This product is conditionally registered in accordance with FIFRA sec. 3(c) (7) (A) provided that you:

1. Submit and/or cite all data or other material required for registration/reregistration of your product under FIFRA sec. 3(c) (5) or FIFRA sec. 4 when the Agency requires all registrants of similar products to submit such data.

2. Make the labeling changes listed below before you release the product for shipment:

a) Add the phase, "EPA Registration 3573-64" to your label before you release your product for shipment.

Signature of Approving Official:

Adam Heyward, Product Manager (34)
Regulatory Management Branch II
Antimicrobials Division (7510W)

Date:

JULY 31, 1998

Jette

The label is of limited efficacy disinfectants, or disinfectants which are effective against a specific major group of microorganisms only (in this case Gram-negative bacteria) and must denote the major group against Gram-negative bacteria only). Therefore on the front panel of the labeling, the following revisions must be made:

b) Revise the statement "All Purpose" to read "Multi-purpose" since this product has demonstrated only limited disinfectant activity, the term All Purpose would be considered false and misleading.

c) The complete genus and species must be specified for the listed bacteria. Therefore, you must revise *Salmonella* to read "*Salmonella choleraesuis*, and *E.Coli* to *Escherichia coli*.

d) Delete the term "Powerful" front the labeling. This term is mis-leading and suggest this product is better than other similar registered products.

3. Submit five (5) copies of your final printed labeling before you release the product for shipment. Refer to the A-79 enclosure for a further description of final printed labeling.

If these conditions are not complied with, the registration will be subject to cancellation in accordance with FIFRA sec. 6(e). Your release for shipment of the product constitutes acceptance of these conditions.

A stamped copy of the label is enclosed for your records.

Sincerely,

Adam Heyward
Product Manager 34
Regulatory Management Branch II
Antimicrobials Division (7510W)

AND HOUSEHOLD GERMS & VIRUSES
REMOVES GREASE. DISINFECTS. DEODORIZES.
AN EASY WAY TO CLEAN AND DISINFECT
TOUGH On Dirt and HOUSEHOLD GERMS...EASY On You!
TOUGH CLEANING FOR YOUR ENTIRE HOME!

DIRECTIONS FOR USE:

It is a violation of Federal law to use this product in a manner inconsistent with its labeling.

FLOORS/DILUTE CLEANING: Mix 1 capful per 1 gallon (1/2 bucket) of water. Easy to use. Usually no need to rinse. **TOUGH JOBS:** Pour directly on tough soil or on sponge. Wipe and rinse. **TOILET:** Pour in bowl and brush. **MAKE YOUR OWN SPRAY:** Dilute 1 part Ultra Spic and Span with 2 parts water. **CARS & FINISHED WOOD:** Use diluted only.

DISINFECTING (hard non-porous surfaces): Apply full strength product on the surface and let stand for 10 minutes before wiping. For highly soiled areas, clean before following disinfecting directions.

Ultra Spic and Span kills Household Germs such as Salmonella, E. coli, and Proteus mirabilis.

Ultra Spic and Span kills/is proven effective on viruses such as Influenza A₂ and Herpes Simplex type 1 (causes cold sores).

Not recommended for carpets or aluminum surfaces.

*Kills HIV ON PRE-CLEANED ENVIRONMENT SURFACES/OBJECTS PREVIOUSLY SOILED WITH BLOOD/BODY FLUIDS in health care settings or other settings in which there is an expected likelihood of soiling of inanimate surfaces/objects with blood/body fluids, and in which the surfaces/objects likely to be soiled with blood/body fluids can be associated with the potential for transmission of human immunodeficiency virus Type 1 (HIV-1)(associated with AIDS).

SPECIAL INSTRUCTIONS FOR CLEANING AND DECONTAMINATION AGAINST HIV OF SURFACES/OBJECTS SOILED WITH BLOOD/BODY FLUIDS.

PERSONAL PROTECTION. When handling items soiled with blood/body fluids, use disposable latex gloves, a gown, mask, and eye protection.

CLEANING PROTECTION. Blood/body fluids must be thoroughly cleaned from surfaces and objects before application of the disinfectant.

DISPOSAL OF INFECTIOUS MATERIALS. Blood/body fluids should be autoclaved and disposed of according to Federal, State, and Local regulations for infectious waste disposal.

CONTACT TIME. Apply full strength product on the surface and let stand for 5 minutes before wiping. This contact time will not control other common types of viruses and bacteria.

*If making claims on HIV must include the following:
