FILE COPY

Subject: PRIA (D# 440651)
CSP-3002-3
EPA Registration No. 3573-77
Application Dated: September 29, 2010
Receipt Dated: October 5, 2010

Dear Ms. Stuart:

The following PRIA amendment submitted in connection with registration under the Federal Insecticide, Fungicide and Rodenticide Act (FIFRA), as amended, is acceptable with conditions.

Conditions:

1. The term "Grade" which is considered heightened efficacy when associated with Hospital Disinfection (PR - Notice 93-6) has been removed.
2. Revise the Precautionary statement to read "Harmful if absorbed through the skin. Cause moderate eye irritation. Do not get in eyes on skin or clothing. Avoid breathing vapor or spray mist. Wear protective eyewear when using this product. Wash thoroughly with soap and water after handling and before eating, drinking, chewing gum, using tobacco, or using the toilet..."
3. The claim "Multi-drug Resistant" is unacceptable when it is associated with *Acinetobacter baumannii*. Multi-drug resistant does not provide sufficient information regarding the resistance pattern of the tested organism. Additionally, the Agency has determined that Associated not Acquired is the correct nomenclature for Community Associated Methicillin Resistant *Staphylococcus aureus* claims. Lastly, the identifier "Flesh Eating BIRD M3" with *Streptococcus pyogenes* is unacceptable. The source information that supports this identification was not included in the data package.
4. On pages 6-8 of the proposed label, remove the claim "fast-acting" as the Agency has not determined which contact times should be associated with this claim.

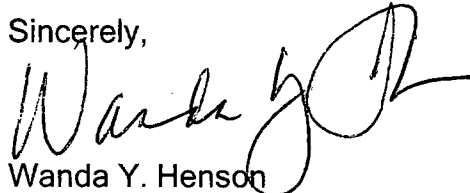

5. On page 10 of the proposed label, change "diary farms" with "dairy farms."
6. On page 12 of the proposed label, change "Plexiglass" to read "Plexiglas."
7. On page 12 of the proposed label, change "enamel" to read "baked enamel."
Enamel is a porous surface.
8. On page 12 of the proposed label, change "marble" to read "sealed marble."
Marble is a porous surface.
9. Add ATCC numbers for all listed microorganisms.

General Comments:

A stamped copy of the accepted labeling with conditions is enclosed. Submit one copy of your final printed labeling before distributing or selling the product bearing the revised labeling.

Should you have any questions or comments concerning this letter, please contact me at Henson.Wanda@epa.gov or call (703) 308-6345.

Sincerely,

Wanda Y. Henson
Acting Product Manager - Team 32

BACKSIDE Panel

DIRECTIONS FOR [HOUSEHOLD] [INSTITUTIONAL] [COMMERCIAL] USE: It is a violation of Federal law to use this product in a manner inconsistent with its labeling. **Gallon size:** Refill [into] properly labeled spray bottle[s]. \Refill [only] properly labeled [Product name] [Cleaner with Bleach] spray bottle[s].\Refill only [Product name] Cleaner with Bleach spray bottle[s].

Use the following usage instructions for concentrate
CONCENTRATED PRODUCT – DILUTE BEFORE USING [(1 gallon makes 5 gallons of diluted\disinfecting\sanitizing product and 10 gallons of cleaning\deodorizing product)]

Closed chemical container: ATTACHING THIS PRODUCT TO THE [P&G] [AUTOMATIC] DILUTION CENTER: Remove the [white] shipping cap.

Closed chemical container: DO NOT REMOVE [WHITE] PLUG FROM BOTTLE THROAT! Screw on [white] dispensing cap from dilution center tube. Push down while twisting.

PREPARING \MANUAL PREPARATION OF CLEANING \[DEODORIZING] SOLUTION: Mix 1 part [of this] product\concentrate per 9 parts water into a [Product Name] [Cleaner with Bleach] spray bottle [using the dilution center].\Mix this product\concentrate with water using the [P&G] [AUTOMATIC] dilution center.

PREPARING \MANUAL PREPARATION OF DISINFECTING \[SANITIZING] SOLUTION: Mix 1 part [of this] product\concentrate per 4 parts water into a [Product Name] [Cleaner with Bleach] spray bottle [using the dilution center].\Mix this product\concentrate with water using the [P&G] [AUTOMATIC] dilution center.

KILLS HIV-1 (AIDS VIRUS) ON PRECLEANED ENVIRONMENTAL SURFACES\OBJECTS PREVIOUSLY SOILED WITH BLOOD\BODY FLUIDS, in health care settings in which there is an expected likelihood of soiling of inanimate surfaces\objects with blood or body fluids, and in which the surfaces\objects likely to be soiled with blood or body fluids can be associated with the potential for transmission of human immunodeficiency virus Type 1(HIV-1) (associated with AIDS).

SPECIAL INSTRUCTIONS FOR CLEANING AND DECONTAMINATION AGAINST HIV-1 ON SURFACES\OBJECTS SOILED WITH BLOOD\BODY FLUIDS.

PERSONAL PROTECTION: When handling items soiled with blood or body fluids, use disposable latex gloves, gowns, masks and eye protection.

CLEANING PROCEDURE: Blood and other body fluids containing HIV must be thoroughly cleaned from surfaces and objects before application of this product.

CONTACT TIME: Thoroughly wet surfaces with disinfecting solution for 5 minutes, then rinse or wipe clean.

DISPOSAL OF INFECTIOUS MATERIAL: Blood, body fluids, cleaning materials and clothing must be autoclaved and disposed of according to local regulations for infectious waste disposal.

Note: Bold, italicized text is for reader clarity only. Bracketed [] text denotes optional text. Backslash \ denotes alternate text.

GENERAL CLEANING [DIRECTIONS]: Apply to hard, non-porous surfaces. Spray\Pour\spray directly onto surface [or] [damp sponge] [cloth] [paper towel] [towel]. Rinse or wipe clean. For tough stains or soil, let soak\stand [1 minute\60 seconds].\For tougher soils, allow to soak. **[FLOORS:** Add 250 ml\1 cup [concentrate\product] per 3.78 L\1 gallon warm water. Mop and rinse.]

GENERAL DEODORIZING [DIRECTIONS]: Apply to hard, non-porous surfaces. Spray\Pour\spray directly onto surface [or] [damp sponge] [cloth] [paper towel] [towel]. Rinse or wipe clean. For tough odors, let soak\stand [1 minute\60 seconds].\For tougher odors, allow to soak. **[FLOORS:** Add 250 ml\1 cup [concentrate\product] per 3.78 L\1 gallon warm water. Mop and rinse.]

POULTRY FARM DISINFECTION [DIRECTIONS]: Remove all poultry and feeds from premises, trucks, coops, and crates. Remove all litter and droppings from floors, walls and surfaces of facilities occupied or traversed by poultry. Empty all troughs, racks, and other feeding and watering appliances. Thoroughly clean all surfaces with soap or detergent and rinse with water. Saturate surfaces with the recommended disinfecting solutions for a period of 10 minutes. Ventilate buildings, coops, and other closed spaces. Do not house poultry or employ equipment until treatment has been absorbed, set, or dried. Thoroughly scrub treated feed racks, troughs, automatic feeders, fountains, and waterers with soap or detergent, and rinse with potable water before reuse.

DAIRY FARM DISINFECTION [DIRECTIONS]: Do not use in milking stalls, milking parlors, or milk houses (for phenolics, cresylic acid, and pine oils). Remove all animals and feed from premises, vehicles, and enclosures. Remove all litter and manure from floors, walls and surfaces of barns, pens, stalls, chutes, and other facilities and fixtures occupied or traversed by animals. Empty all troughs, racks, and other feeding and watering appliances. Thoroughly clean all surfaces with soap or detergent and rinse with water. Saturate all surfaces with the recommended disinfecting solution for a period of 10 minutes. Immerse all halters, ropes, and other types of equipment used in handling and restraining animals, as well as forks, shovels, and scrapers used for removing litter and manure. Ventilate buildings, cars, boats, and other closed spaces. Do not house livestock or employ equipment until treatment has been absorbed, set, or dried. Thoroughly scrub all treated feed racks, mangers, troughs, automatic feeders, fountains, and waterers with soap or detergent, and rinse with potable water before reuse.

(Note to reviewer: For labels that list medical environments, hospitals, nursing homes, medical and dental offices and clinics, operation rooms, isolation wards, patient chairs, examination chairs and wheelchairs, the following statement must be used:)

This product is not to be used as a terminal sterilant/high level disinfectant on any surface or instrument that (1) is introduced directly into the human body, either into or in contact with the bloodstream or normally sterile areas of the body, or (2) contacts intact mucous membranes but which does not ordinarily penetrate the blood barrier or otherwise enter normally sterile areas of the body. This product may be used to preclean or decontaminate critical or semi-critical medical devices prior to sterilization or high level disinfection.

6/14

PRECAUTIONARY STATEMENTS: Hazards to Humans and Domestic Animals

CAUTION: Harmful if absorbed through skin. Causes moderate eye irritation. Do not get in eyes or on clothing. Avoid contact with skin. Avoid breathing vapor or spray mist. Wash hands thoroughly with soap and water after handling and before eating, drinking, chewing gum or using tobacco. Not recommended for use by persons with heart conditions or chronic respiratory problems such as asthma, emphysema or obstructive lung disease. For sensitive skin or prolonged use, wear gloves. Remove contaminated clothing and wash clothing before use.

FIRST AID: **If on skin or clothing**, take off contaminated clothing. Rinse skin immediately with plenty of water for 15 -20 minutes. **If in eyes**, hold eye open and rinse slowly and gently with water for 15-20 minutes. Remove contact lenses, if present, after the first 5 minutes, then continue rinsing the eye. **If inhaled**, get to fresh air immediately.
Contact a poison control center or doctor for treatment advice. Have the product container or label with you when calling the poison control center or doctor, or going for treatment.

PHYSICAL AND CHEMICAL HAZARDS: Contains Bleach. Do not mix with other products, especially toilet bowl cleaners or products that contain ammonia as hazardous vapors/fumes may result. Avoid contact with clothes, fabric, carpet, wood, rubber, painted or paper surfaces, as they will discolor. Rinse immediately after use on metal, old glazed porcelain, or worn countertops to avoid discoloration or pitting.

STORAGE/DISPOSAL: Store in cool place.

(READY-TO-USE APPLICATION:)

Nonrefillable container. Do not reuse or refill this container. Offer for recycling if available. \ (or)

Refill/reuse this container only as described in directions for use. Otherwise, wrap [container] and put in trash or offer for recycling if available.

Triple rinse container (or equivalent) promptly after emptying. Triple rinse as follows: Empty the remaining contents into application equipment or a mix tank and drain for 10 seconds after the flow begins to drip. Fill the container 1/4 full with water and recap. Shake for 10 seconds. Pour rinsate into application equipment or a mix tank or store rinsate for later use or disposal. Drain for 10 seconds after the flow begins to drip. Repeat this procedure two more times.

[Refill:

- Refill [32 oz] sprayer size from [this convenient] container.
- Use only in [product name] spray bottle.
- Only refill [convenient] sprayer with [product name] [this product].
- [Only] refill sprayer with [x oz.][only].
- Do not dilute].
