OFFICE OF CHEMICAL SAFETY  
AND POLLUTION PREVENTION

May 27, 2021

Katherine Poiesz  
Authorized Representative  
The Procter & Gamble Company  
5299 Spring Grove Avenue  
Cincinnati, OH 45217

Subject: PRIA Label and CSF Amendment – Addition of labeling claims, reduction of contact times for 16 organisms and revisions of Basic CSF and Alternate CSF 1  
Product Name: CSP-3002-3  
EPA Registration Number: 3573-77  
Received Date: September 25, 2020  
Action Case Number/Decision Number: 00151976

Dear Ms. Poiesz:

The amended label and CSFs referred to above, submitted in connection with registration under the Federal Insecticide, Fungicide and Rodenticide Act, as amended, are acceptable. This approval does not affect any conditions that were previously imposed on this registration. You continue to be subject to existing conditions on your registration and any deadlines connected with them.

A stamped copy of your labeling is enclosed for your records. This labeling supersedes all previously accepted labeling. Pursuant to 40 CFR 156.10(a)(6), you must submit one copy of the final printed labeling before you release the product for shipment with the new labeling. In accordance with 40 CFR 152.130(c), you may distribute or sell this product under the previously approved labeling for 18 months from the date of this letter. After 18 months, you may only distribute or sell this product if it bears this new revised labeling or subsequently approved labeling. “To distribute or sell” is defined under FIFRA section 2(gg) and its implementing regulation at 40 CFR 152.3.

Please note that the record for this product currently contains the following CSF(s):

- Basic CSF dated 02/03/2021
- Alternate CSF 1 dated 02/03/2021

Should you wish to add/retain a reference to the company’s website on your label, then please be aware that the website becomes labeling under FIFRA and is subject to review by the Agency. See FIFRA section 2(p)(2). If the website is false or misleading, the product would be misbranded and unlawful to sell or distribute under FIFRA section 12(a)(1)(E). 40 CFR 156.10(a)(5) lists examples of statements EPA may consider false or misleading. In addition, regardless of whether a website is referenced on your product’s label, claims made on the

Page 2 of 2  
EPA Reg. No. 3573-77  
Action Case No. 00151976

website may not substantially differ from those claims approved through the registration process, FIFRA section 12(a)(1)(B). Therefore, should the Agency find or if it is brought to our attention that a website contains false or misleading statements or claims substantially differing from the EPA approved registration, the website will be referred to the EPA's Office of Enforcement and Assurance.

Your release for shipment of the product constitutes acceptance of these conditions. If these conditions are not complied with, the registration will be subject to cancellation in accordance with FIFRA section 6. If you have any questions, please contact Melanie Bolden by phone at (703) 347-0165, or via email at [Bolden.Melanie@epa.gov](mailto:Bolden.Melanie@epa.gov).

Sincerely,

A handwritten signature in black ink, appearing to read "D. Fuller", with a horizontal line extending to the right.

Demson Fuller, Product Manager 32

Note: Bold, italicized text and text in {braces} is for reader clarity only and informational to the reviewer}. Bracketed [ ] text denotes optional text. Backslash \ denotes alternate text.

**BACKSIDE Panel**

**{NOTE TO REVIEWER: DIRECTIONS FOR USE ARE PROVIDED IN THE SUB-LABELS AT THE END OF THIS LABEL.}**

**PRECAUTIONARY STATEMENTS:** Hazards to Humans and Domestic Animals

**CAUTION:** Harmful if absorbed through the skin. Causes moderate eye irritation. Do not get in eyes, on skin, or on clothing. Avoid breathing vapor or spray mist. Wear protective eyewear when using this product. Wash thoroughly with soap and water after handling and before eating, drinking, chewing gum, using tobacco or using the toilet. Not recommended for use by persons with heart conditions or chronic respiratory problems such as asthma, emphysema or obstructive lung disease. For sensitive skin or prolonged use, wear gloves. Remove contaminated clothing and wash clothing before use.

**FIRST AID: If on skin or clothing,** take off contaminated clothing. Rinse skin immediately with plenty of water for 15 - 20 minutes. **If in eyes,** hold eye open and rinse slowly and gently with water for 15 - 20 minutes. Remove contact lenses, if present, after the first 5 minutes, then continue rinsing the eye. **If inhaled,** move person to fresh air. Contact a poison control center or doctor for treatment advice. Have the product container or label with you when calling the poison control center or doctor, or going for treatment.

**PHYSICAL AND CHEMICAL HAZARDS:** Contains Bleach. Do not mix with other products, especially toilet bowl cleaners or products that contain ammonia as hazardous vapors/fumes may result. \ Do not mix with other cleaning products or chemicals as irritating fumes may be formed. Avoid contact with clothes, fabric, carpet, wood, rubber, painted or paper surfaces, as they will discolor. Rinse immediately after use on metal, old glazed porcelain, or worn countertops to avoid discoloration or pitting.

**STORAGE AND DISPOSAL**

Do not contaminate food or feed by storage, disposal, or cleaning of equipment.

**STORAGE:** Store this product in a cool, dry area away from direct sunlight and heat to avoid deterioration. In case of spill, flood area with large quantities of water.

**PESTICIDE DISPOSAL:** Products or rinsates that cannot be used must be diluted with water before disposal in a sanitary sewer.

**CONTAINER HANDLING:** Nonrefillable container. Do not reuse or refill this container [except as described in the directions for use]. Clean container promptly after emptying. Triple rinse as follows: Fill container 1/4 full with water and recap. Shake for 10 seconds. Drain for 10 seconds after the flow begins to drip. Follow Pesticide Disposal instructions for rinsate disposal. Repeat this procedure two more times. Offer for recycling if available or puncture and place in trash.

### **EMERGING VIRAL PATHOGENS**

This product qualifies for emerging viral pathogen claims per the EPA's "Guidance to Registrants: Process for Making Claims Against Emerging Viral Pathogens not on EPA-registered Disinfectant Labels" when used in accordance with the use directions indicated below.

*{Note to Reviewer: These statements for claims against large non-enveloped and/or enveloped emerging pathogens shall not appear on marketed (final print) product labels.}*

This product meets the criteria to make claims against certain emerging viral pathogens from the following viral categories:

- Enveloped viruses
- Large Non-enveloped viruses
- Small Non-enveloped viruses

| <i>For an emerging viral pathogen that is a/an...</i> | <i>...follow the directions for use for the following organism(s) on the label</i> |
|---|--|
| Enveloped virus                                       | Norovirus<br>Poliovirus  |
| Large, non-enveloped virus                            | Norovirus<br>Poliovirus  |
| Small, non-enveloped virus                            | Norovirus<br>Poliovirus  |

[CSP-3002-3][This product][Product Name] has demonstrated effectiveness against viruses similar to [name of emerging virus] on hard, non-porous surfaces. Therefore, [CSP-3002-3][this product] can be used against [name of emerging virus] when used in accordance with the directions for use against Norovirus or Poliovirus on hard non-porous surfaces. Refer to the [CDC or OIE] website at [pathogen-specific website address] for additional information.

AND/OR

[Name of illness/outbreak] is caused by [name of emerging virus]. [CSP-3002-3][This product] kills similar viruses and therefore can be used against [name of emerging virus] when used in accordance with the directions for use against Norovirus or Poliovirus on hard, non-porous surfaces. Refer to the [CDC or OIE] website at [website address] for additional information.

**SUB-LABEL 1:**  
**PRODUCT FOR AUTOMATIC DILUTION/DILUTION CONTROL SYSTEM**

**DIRECTIONS FOR [HOUSEHOLD] [INSTITUTIONAL] [COMMERCIAL] USE:** It is a violation of Federal law to use this product in a manner inconsistent with its labeling.

**CONCENTRATED PRODUCT – DILUTE BEFORE USING** [(1 gallon makes 5 gallons of diluted\disinfecting\sanitizing product and 10 gallons of cleaning\deodorizing product)]

**ATTACHING THIS PRODUCT TO THE [P&G] [AUTOMATIC] DILUTION CENTER:** Remove the [white] shipping cap. **DO NOT REMOVE [WHITE] PLUG FROM BOTTLE THROAT!** Screw on [white] dispensing cap from dilution center tube. Push down while twisting.

**PREPARING\PREPARATION OF DISINFECTING[/] [AND] \[SANITIZING] SOLUTION:** Mix 1 part [of this] product\concentrate per 4 parts water into a [Product Name] [Cleaner with Bleach] spray bottle [using the dilution center].\Mix this product\concentrate with water using the [P&G] [AUTOMATIC] dilution center.

**TO [CLEAN AND] SANITIZE hard, non-porous surfaces:** Clean surfaces prior to sanitizing visibly soiled areas.\For visibly soiled areas, clean before sanitizing\following sanitizing directions. Thoroughly wet hard, non-porous surfaces [with [sanitizing] solution].\Spray product on surface. Treated surfaces must remain wet for 1 minute\60 seconds[, then rinse or wipe clean] [before wiping]. **TOILET BOWLS [AND URINALS]:** **To sanitize surfaces above the waterline**, empty water from the toilet bowl [or urinal]. [Hold 6-8" from surface.] Spray [covering] exposed surfaces. Brush thoroughly over surfaces and under the rim to completely wet surfaces. Treated surfaces must remain wet for 1 minute\60 seconds, then flush.

**TO [CLEAN AND] DISINFECT hard, non-porous surfaces:** Clean surfaces prior to disinfecting visibly soiled areas.\For visibly soiled areas, clean before disinfecting\following disinfecting directions. Thoroughly wet hard, non-porous surfaces [with [disinfecting] solution].\Spray product on surface. Treated surface must remain wet for 1 minute\60 seconds[, then rinse or wipe clean][before wiping]. **TOILET BOWLS [AND URINALS]:** To disinfect surfaces above the waterline, empty water from the toilet bowl [or urinal]. [Hold 6-8" from surface.] Spray [covering] exposed surfaces. Brush thoroughly over surfaces and under the rim to completely wet surfaces. Treated surfaces must remain wet for 1 minute\60 seconds, then flush.

**PREPARING\MANUAL PREPARATION OF CLEANING\[DEODORIZING] SOLUTION:** Mix 1 part [of this] product\concentrate per 9 parts water into a [Product Name] [Cleaner with Bleach] spray bottle [using the dilution center].\Mix this product\concentrate with water using the [P&G] [AUTOMATIC] dilution center.

**GENERAL CLEANING [DIRECTIONS]:** Apply to hard, non-porous surfaces. Spray\Pour\spray directly onto surface [or] [damp sponge] [cloth] [paper towel] [towel]. Rinse or wipe clean. For tough stains or soil, let soak\stand [1 minute\60 seconds].\For tougher soils, allow to soak. **[FLOORS:** Add 250 ml\1 cup [concentrate\product] per 3.78 L\1 gallon warm water. Mop and rinse.]

**GENERAL DEODORIZING [DIRECTIONS]:** Apply to hard, non-porous surfaces. Spray\Pour\spray directly onto surface [or] [damp sponge] [cloth] [paper towel] [towel]. Rinse or wipe clean. For tough odors, let soak\stand [1 minute\60 seconds].\For tougher odors, allow to soak. **[FLOORS:** Add 250 ml\1 cup [concentrate\product] per 3.78 L\1 gallon warm water. Mop and rinse.]

**POULTRY FARM DISINFECTION [DIRECTIONS]:** Remove all poultry and feeds from premises, trucks, coops, and crates. Remove all litter and droppings from floors, walls and surfaces of facilities occupied or traversed by poultry. Empty all troughs, racks, and other feeding and watering appliances. Thoroughly clean all surfaces with soap or detergent and rinse with water. Saturate surfaces with the disinfecting solutions for a period of 10 minutes. Ventilate buildings, coops, and other closed spaces. Do not house poultry or employ equipment until treatment has been absorbed, set, or dried. Thoroughly scrub treated feed racks, troughs, automatic feeders, fountains, and waterers with soap or detergent, and rinse with potable water before reuse.

Note: Bold, italicized text and text in {braces} is for reader clarity only and informational to the reviewer}. Bracketed [ ] text denotes optional text. Backslash \ denotes alternate text.

**DAIRY FARM DISINFECTION [DIRECTIONS]:** Do not use in milking stalls, milking parlors, or milk houses (for phenolics, cresylic acid, and pine oils). Remove all animals and feed from premises, vehicles, and enclosures. Remove all litter and manure from floors, walls and surfaces of barns, pens, stalls, chutes, and other facilities and fixtures occupied or traversed by animals. Empty all troughs, racks, and other feeding and watering appliances. Thoroughly clean all surfaces with soap or detergent and rinse with water. Saturate all surfaces with the disinfecting solution for a period of 10 minutes. Immerse all halters, ropes, and other types of equipment used in handling and restraining animals, as well as forks, shovels, and scrapers used for removing litter and manure. Ventilate buildings, cars, boats, and other closed spaces. Do not house livestock or employ equipment until treatment has been absorbed, set, or dried. Thoroughly scrub all treated feed racks, mangers, troughs, automatic feeders, fountains, and waterers with soap or detergent, and rinse with potable water before reuse.

*{Note to reviewer: For labels that list medical environments, hospitals, nursing homes, medical and dental offices and clinics, operation rooms, isolation wards, patient chairs, examination chairs and wheelchairs, the following statement must be used:}*

This product is not to be used as a terminal sterilant/high level disinfectant on any surface or instrument that (1) is introduced directly into the human body, either into or in contact with the bloodstream or normally sterile areas of the body, or (2) contacts intact mucous membranes but which does not ordinarily penetrate the blood barrier or otherwise enter normally sterile areas of the body. This product may be used to preclean or decontaminate critical or semi-critical medical devices prior to sterilization or high level disinfection.

***{Note to Reviewer: The bloodborne pathogens listed in these special instructions will match those listed on the final printed label.}***

**KILLS [HIV-1 (AIDS VIRUS)][,] [and] [HBV][,] [and] [HCV] ON PRECLEANED ENVIRONMENTAL SURFACES\OBJECTS PREVIOUSLY SOILED WITH BLOOD\BODY FLUIDS**, in health care settings in which there is an expected likelihood of soiling of inanimate surfaces\objects with blood or body fluids, and in which the surfaces\objects likely to be soiled with blood or body fluids can be associated with the potential for transmission of [human immunodeficiency virus Type 1(HIV-1) (associated with AIDS)][,] [and] [HBV][,] [and] [HCV].

**SPECIAL INSTRUCTIONS FOR CLEANING AND DECONTAMINATION AGAINST [HIV-1][,] [and] [HBV][,] [and] [HCV] ON SURFACES\OBJECTS SOILED WITH BLOOD\BODY FLUIDS.**

**PERSONAL PROTECTION:** When handling items soiled with blood or body fluids, use disposable latex gloves, gowns, masks and eye protection.

**CLEANING PROCEDURE:** Blood and other body fluids containing [HIV][,] [and] [HBV][,] [and] [HCV] must be thoroughly cleaned from surfaces and objects before application of this product.

**CONTACT TIME:** Thoroughly wet surfaces with disinfecting solution for 1 minute\60 seconds, then rinse or wipe clean. Please consult the usage directions to determine the appropriate contact times for other organisms.

**DISPOSAL OF INFECTIOUS MATERIAL:** Blood, body fluids, cleaning materials and clothing must be autoclaved and disposed of according to local regulations for infectious waste disposal.

## **SUB-LABEL 2:** **READY-TO-USE PRODUCT**

**DIRECTIONS FOR [HOUSEHOLD] [INSTITUTIONAL] [COMMERCIAL] USE:** It is a violation of Federal law to use this product in a manner inconsistent with its labeling. [Do not dilute].

**{Gallon size:} REFILL DIRECTIONS:** Refill [into] properly labeled spray bottle[s].\Refill [only] [properly labeled] [Product name] [Cleaner with Bleach] spray bottle[s].\Refill only [Product name] Cleaner with Bleach spray bottle[s].\ Refill [1 QT] [/] [32 oz] sprayer [size] from [this convenient] container.\Use only in\to refill [CSP-3002-3] spray bottle.\Pour CSP-3002-3\[this] product into [CSP-3002-3] spray bottle.

**{Spray Bottle:} REFILL DIRECTIONS\TO REFILL:** Refill [this] [convenient] [sprayer] only with undiluted CSP-3002-3.\Use only undiluted CSP-3002-3 to refill [this] bottle.\Pour undiluted CSP-3002-2\product into [this] sprayer bottle from refill [container].

**TO [CLEAN AND] SANITIZE hard, non-porous surfaces:** Clean surfaces prior to sanitizing visibly soiled areas.\For visibly soiled areas, clean before sanitizing\following sanitizing directions. Thoroughly wet hard, non-porous surfaces [with [sanitizing] solution].\Spray product on surface. Treated surfaces must remain wet for 1 minute\60 seconds[, then rinse or wipe clean] [before wiping]. **TOILET BOWLS [AND URINALS]:** To sanitize surfaces above the waterline, empty water from the toilet bowl [or urinal]. [Hold 6-8" from surface.] Spray [covering] exposed surfaces. Brush thoroughly over surfaces and under the rim to completely wet surfaces. Treated surfaces must remain wet for 1 minute\60 seconds, then flush.

**TO [CLEAN AND] DISINFECT hard, non-porous surfaces:** Clean surfaces prior to disinfecting visibly soiled areas.\For visibly soiled areas, clean before disinfecting\following disinfecting directions. Thoroughly wet hard, non-porous surfaces [with [disinfecting] solution].\Spray product on surface. Treated surface must remain wet for 1 minute\60 seconds[, then rinse or wipe clean][before wiping]. **TOILET BOWLS [AND URINALS]:** To disinfect surfaces above the waterline, empty water from the toilet bowl [or urinal]. [Hold 6-8" from surface.] Spray [covering] exposed surfaces. Brush thoroughly over surfaces and under the rim to completely wet surfaces. Treated surfaces must remain wet for 1 minute\60 seconds, then flush.

**TO CLEAN AND DISINFECT against *Clostridium difficile* spores on hard, non-porous surfaces:** Clean<sup>‡</sup> surfaces prior to disinfecting.\Clean<sup>‡</sup> before disinfecting\following disinfecting directions. Thoroughly wet hard, non-porous surfaces [with [disinfecting] solution].\Spray product on surface. Treated surfaces must remain wet for 10 minutes[, then rinse or wipe clean] [before wiping].

<sup>‡</sup>See Special instructions for cleaning prior to disinfection against *Clostridium difficile* spores

**GENERAL CLEANING [DIRECTIONS]:** Apply to hard, non-porous surfaces. Spray\Pour\spray directly onto surface [or] [damp sponge] [cloth] [paper towel] [towel]. Rinse or wipe clean. **DISPOSAL OF INFECTIOUS MATERIAL:** Blood, body fluids, cleaning materials and clothing must be autoclaved and disposed of according to local regulations for infectious waste disposal.

**Special instructions for cleaning prior to disinfection against Clostridium difficile spores:**

**Personal Protection:** Wear appropriate barrier protection such as gloves, gowns, masks and eye protection.

**Cleaning Procedure:** Fecal matter/waste must be thoroughly cleaned from surfaces/objects before disinfection by application with product. Cleaning is to include vigorous wiping and/or scrubbing until all visible soil is removed. Special attention is needed for high touch surfaces. Surfaces in patient rooms are to be cleaned in an appropriate manner such as from right to left or left to right on horizontal surfaces and top to bottom on vertical surfaces to minimize spreading of the spores. Restrooms are to be cleaned last. Do not use soiled cloths.

**Infectious Material Disposal:** Materials used in the cleaning process that may contain feces/wastes are to be disposed of immediately in accordance with local regulations for infectious material disposal.

**Disinfection:** Thoroughly wet surfaces with undiluted\ready-to-use disinfection solution for 10 minutes using a clean mop, cloth, or sponge, then rinse or wipe clean.

Note: Bold, italicized text and text in {braces} is for reader clarity only and informational to the reviewer}. Bracketed [ ] text denotes optional text. Backslash \ denotes alternate text.
