Note: Changes in labeling differing in substance from that accepted in connection with this registration must be submitted to and accepted by the Registration Division prior to use of the label in commerce. In any correspondence on this product always refer to the above EPA registration number.

On the basis of information furnished by the registrant, the above named pesticide is hereby registered/reregistered under the Federal Insecticide, Fungicide and Rodenticide Act.

Registration is in no way to be construed as an endorsement or recommendation of this product by the Agency. In order to protect health and the environment, the Administrator, on his motion, may at any time suspend or cancel the registration of a pesticide in accordance with the Act. The acceptance of any name in connection with the registration of a product under this Act is not to be construed as giving the registrant a right to exclusive use of the name or to its use if it has been covered by others.

This product (OPP Decision No. D-401860) is conditionally registered in accordance with FIFRA sec 3(c)(7)(A) provided that you:

1. Submit and/or cite all data required for registration of your product under FIFRA sec. 3(c)(5) when the Agency requires all registrants of similar products to submit such data; and submit acceptable responses required for re-registration of your product under FIFRA section 4.

2. Make the labeling changes listed below before you release the product for shipment:

a. Revise the "EPA File Symbol to read, "EPA Reg. No. 3573-92".

- b. The Ingredient statement must be aligned and the percentage of available chlorine added to the proposed label.
- c. Update the Container Disposal language per PR-Notice 2007-4.
- d. The "Note to reviewer" has been removed from page 3 of the label.
- e. The high level disinfectant disclaimer statement must be moved closer to the appropriate disinfection directions for use on the label. This disclaimer statement would not apply to Poultry and Dairy Farm Disinfection.
- f. The claim "prevents the spread" should consistently include the organism. The statement should read "Prevents the spread of *Salmonella enterica* on treated surfaces" or "Prevents the spread of *Salmonella enterica* on treated surfaces for 5 minutes."
- g. Remove the heightened efficacy claim "Fast Acting Disinfectant" from the label.
- h. Remove the optional brackets from [outside of] appliances on the label.
3. Submit three (3) copies of your final printed labeling before distributing or selling the product bearing the revised labeling.

If these conditions are not complied with, the registration will be subject to cancellation in accordance with FIFRA sec. 6(e). Your release for shipment of the product constitutes acceptance of these conditions.

A stamped copy of the label is enclosed for your records.

Sincerely,

Emily Mitchell
