# POOL GUARD CONCENTRATE

RECEIVED  
MAR 19 1974  
INDUSTRIAL COLLOIDS & CHEMICALS, INC.

EPA Reg. No. 3618-24  
1 Gallon

## CAUTION

Harmful if swallowed. Do not get in eyes. Avoid contact with skin. In case of contact flush with plenty of water for at least 15 minutes. If eye irritation persists get medical attention. Avoid contamination of food.

Rinse empty container thoroughly with water and discard container. Do not reuse empty drum. Return to drum reconditioner or destroy by perforating or crushing and burying in a safe place away from water supplies.

This product is toxic to fish. Treated effluent should not be discharged where it will drain into lakes, streams, ponds, or public water. Apply this product only as specified on this label.

## COMPOSITION

Active ingredients:  
Poly (oxyethylene(dimethyliminio) ethylene-dimethyliminio)ethylene dichloride) ..... 60.0 percent  
Inert ingredient ..... 40.0 percent

**POOL GUARD CONCENTRATE** is used to control the growth of algae in swimming pools. For maximum effectiveness, pools containing heavy growth of algae should be cleaned prior to using **POOL GUARD CONCENTRATE**.

For pools having just visible algae growth add an initial dose of 11 to 17 fl. oz. of **POOL GUARD CONCENTRATE** per 10,000 gal. of water and remove settled algae debris by cleaning.

For treatment of a freshly cleaned and filled pool, add initially 6 to 11 fl. oz. of **POOL GUARD CONCENTRATE** per 10,000 gal. of water.

To maintain pools free of visible algae growth, subsequent additions of 2 to 4 fl. oz. of **POOL GUARD CONCENTRATE** per 10,000 gal. of water should be made every 5 to 7 days after the initial treatment.

Uniform distribution of **POOL GUARD CONCENTRATE** throughout the water in the pool is necessary for maximum effectiveness.

**POOL GUARD CONCENTRATE** is compatible with those chemicals normally used to treat pools and is effective at both acid and alkaline pH. **POOL GUARD CONCENTRATE** can be used in pools treated with chlorine chemicals and may reduce the amount of those chemicals normally required. However, do not mix **POOL GUARD CONCENTRATE** with concentrated dry or liquid chlorine products.

**KEEP OUT OF REACH OF CHILDREN**
