NOVASPRAY - 15

DIRECTIONS

... ..

1. After the application of the spray, remove the spray to a part of the roof surface of the enclosure and to the atmosphere with mist using a fan. Amount of the product to each 100 m² of roof of space if possible, keep the doors and windows closed for 30 minutes after applying the spray.

CRAWLING INSECTS

(EXPOSED OR ACCESSIBLE STAGES)

ROACHES, SILVERFISH, SPIDERS: Spray infected areas thoroughly and direct the liquid behind baseboards, moldings, cabinets, shelves, sinks, door and window frames and pipes, toward drains and dark corners, and into cracks, crevices, recesses and similar hiding places. Repeat as needed.

ANTS: Treat shelves, cabinets and storage areas. Spray ant runs, trails, baseboards, thresholds and other places of entry, and treat nests liberally.

FLEA AND TICKS. Direct the spray toward "wet wall" bottoms, baseboards, rugs, carpets and floors of infested areas. Spray animal quarters, kennels, and the bedding of cats and other domestic animals.

[illegible][illegible]

NOVA PRODUCTS, INC.

Kansas City, Kansas 66119

For fabrics, use a fine spray of the solution on the surface of the material, paying special attention to the underside of the material. Do not saturate the fabric. For upholstered furniture, spray the fabric, then the frame, and finally, the upholstered portion, to avoid the possibility of staining. Treat both sides of curtains, carpets, and pads, and all exposed and accessible surfaces of overstuffed furniture. Repeat application in 30 days for susceptible articles not stored in mothtight containers.

STORED FOOD PESTS (Exposed stages of flour beetles, weevils, cadellies, grain beetles, meal worms, meal moths, skippers, grain and cheese mites): To avoid sources of reinfestation, wormy flour, grain and cereals should be destroyed before treatment. Spray thoroughly all surfaces of shelves, bins, cupboards, cabinets, pantries, lockers and similar storages, with special attention to cracks, niches, crevices and other hiding places.

Foods should be removed or covered during treatment. All food processing surfaces should be covered during treatment or thoroughly cleaned before using. When using the product as a space spray in these areas, apply only when plant is not in operation.

CAUTION

Do not graze in treated areas and vegetation free area after treatment is completed.

Do not spray or direct toward an open flame. Keep off of wallboard. Avoid contact with eyes, skin, clothing.
