

## DIRECTIONS

**DILUTION:** Each gallon of NOVA CHLORDAN-74 contains 8 pounds of Technical Chlordane. To make a 2% solution of this material add 1 pint of NOVA CHLORDAN-74 to 44 pints (5½ gallons) of water and stir the mixture well. During the spraying it is well to stir the emulsion each time before refilling the sprayer.

**APPLICATION (General):** Apply with a low pressure sprayer which gives a coarse wet spray and very little mist. DO NOT USE AS A SPACE SPRAY FOR FLYING INSECTS. AROUND FOOD INDUSTRIES AND HOME. USE ONLY FOR SPOT APPLICATION FOR CONTROL OF CRAWLING INSECTS.

**ROACHES:** Apply thoroughly to infested cracks and other hiding or resting places. Spray a limited amount of exposed surface where roaches will crawl over it when they come out of hiding. Repeat applications as needed.

**SILVERFISH:** Apply as for roaches but in addition treat baseboards, areas behind shelves, bookcases and storage areas.

**BROWN DOG TICKS IN PREMISES:** Spray around baseboards, window and door frames, wall cracks and sleeping quarters of household pets. The frequency of application should depend on the source and the intensity of infestation. Fresh bedding should be placed in animal quarters following the spraying. DO NOT APPLY DIRECTLY OR INDIRECTLY TO ANIMALS.

**CARPET BEETLES IN PREMISES:** Spray localized areas of the floor and baseboards. Use oil can to squirt diluted material into cracks and behind baseboards. Small areas under carpets may be sprayed BUT DO NOT APPLY TO LARGE AREAS OF THE CARPET. Spot application to floors, baseboards and shelves may be made and applications should be repeated as needed.

# CHLORDAN-74

## ACTIVE INGREDIENTS:

Chlordane, Technical*	74%
Petroleum Distillate	18%
INERT INGREDIENTS	8%

\*Equivalent to 44.4% Octachloro-4, 7-methano-tetrahydroindane and 29.6% related compounds.

## WARNING

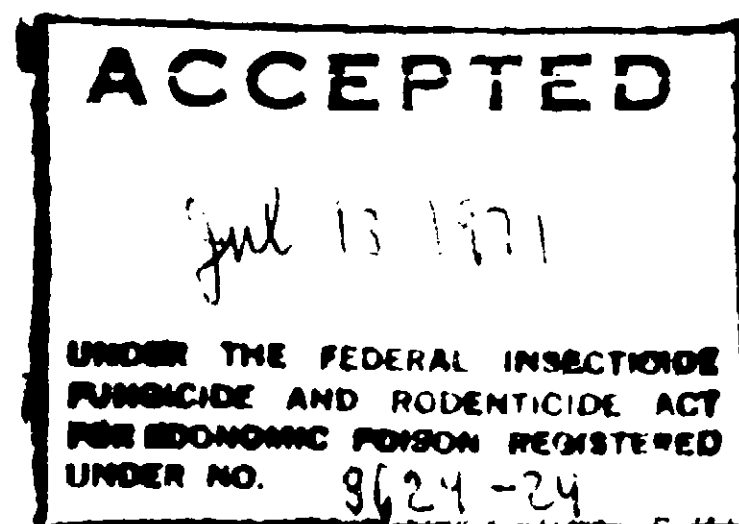

KEEP OUT OF THE REACH OF CHILDREN

See side panels for additional cautions.

USDA REG. NO. 3624-24

## NOVA PRODUCTS, INC.

Kansas City, Kansas 66119

## DIRECTIONS

**ANTS:** Spray trails and areas around door sills and window frames where the pests may enter the premises. Spray openings around water pipes, heat ducts, electrical outlets and baseboards. Repeat applications as often as needed.

**FLYING INSECTS (Flies, gnats, mosquitoes):** Residual treatment of outdoors selected outside portions of dwellings, as around windows, doors and screens, walls and ceilings or porches and out-buildings other than dairy barns will help control these insects. Fly populations and gnats are best reduced by spraying the outside places where they breed.

## WARNING

Contact with skin can cause toxic symptoms. Avoid inhalation or skin contact. In case of spillage on the skin, wash with soap and water. Avoid contamination of feed and foodstuffs. Harmful if swallowed.

Do not spray into or near fire or open flame. Do not smoke while spraying.

## ANTIDOTE

**INTERNAL:** Call a physician immediately. Administer emetic of mustard.

**EXTERNAL:** In case of spillage on skin or clothing wash AT ONCE with soap and water.

## CAUTION

Do not reuse empty drum. Return to drum reconditioner or destroy by perforating or crushing and burying in a safe place. Do not use in commercial food preparation areas or in edible products areas of food processing plants. This product is toxic to fish and wildlife. Keep out of any body of water. Do not contaminate water by cleaning of equipment, or disposal of wastes.
