### DIRECTIONS

**APPLICATION (General)** Apply with a low pressure sprayer which gives a coarse wet spray and very little mist. DO NOT USE AS A SPACE SPRAY FOR FLYING INSECTS. AROUND FOOD INDUSTRIES AND HOMES. USE ONLY FOR SPOT APPLICATION FOR CONTROL OF CRAWLING INSECTS.

**ROACHES:** Apply thoroughly to infested cracks and other hiding or resting places. Spray a limited amount of exposed surface where roaches will crawl over it when they come out of hiding. Repeat applications as needed.

**SILVERFISH:** Apply as for roaches but in addition treat baseboards, areas behind shelves, bookcases and storage areas.

**BROWN DOG TICKS IN PREMISES:** Spray around baseboards, window and door frames, wall cracks and sleeping quarters of household pets. The frequency of application should depend on the source and the intensity of infestation. Fresh bedding should be placed in animal quarters following the spraying. DO NOT APPLY DIRECTLY OR INDIRECTLY TO ANIMALS.

**CARPET BEETLES IN PREMISES:** Spray localized areas of the floor and baseboards. Use oil can to squirt diluted material into cracks and behind baseboards. Small areas under carpets may be sprayed BUT DO NOT APPLY TO LARGE AREAS OF THE CARPET. Spot application to floors, baseboards and shelves may be made and applications should be repeated as needed.

**ANTS:** Spray trails and areas around door

## DIAZINON SPRAY

### ACTIVE INGREDIENTS: 100%

Petroleum Distillate . . . . .	97.412%
Aromatic Petroleum Derivative	
Derivative Solvent . . . . .	2.000%
J,O-Diethyl O-(2-isopropyl-4-methyl-6-pyrimidinyl) phosphorothioate* . . . . .	0.500%
Technical Piperonyl Butoxide** . . . . .	0.063%
Pyrethrins . . . . .	0.025%

\*Diazinon

\*\*Equivalent to 0.05% of (butyl carbityl) (5-propyl piperonyl) ether and 0.013% of related compounds:

### CAUTION

### KEEP OUT OF THE REACH OF CHILDREN

sills and window frames where the pests may  
enter the premises. Spray openings around  
water pipes, heat ducts, electrical outlets  
and baseboards. Repeat applications as  
often as needed.

FLYING INSECTS: (Flies, gnats, mosqui-  
toes): Residual treatment of outdoors (se-  
lected outside portions of dwellings, as  
around windows, doors and screens, walls  
and ceilings or porches and out-buildings  
other than dairy barns) will help control  
these insects. Fly populations and gnats  
are best reduced by spraying the outside  
places where they breed.

### CAUTION

Contact with skin can cause toxic symptoms.  
Avoid breathing spray mist or skin contact.  
In case of spillage on the skin, wash with  
soap and water. Avoid contamination of feed  
and foodstuffs. Harmful if swallowed.

Do not spray into or near fire or open flame.  
Do not smoke while spraying. Do not use in  
commercial food preparation areas or in  
edible products areas of food processing  
plants. This product is toxic to fish and  
wildlife. Do not contaminate water by clean-  
ing of equipment, or disposal of wastes.

### ANTIDOTE

INTERNAL: Call a physician immediately.  
Administer emetic of mustard.

EXTERNAL: In case of spillage on skin or  
clothing wash AT ONCE with soap and  
water.

2-PAM is also antidotal and may be admin-  
istered in conjunction with atropine.
