

FOR USE BY PEST CONTROL OPERATORS ONLY.

Kills Exposed Stages of: Roaches, Flies, Silverfish. Aids in control of: Carpet Beetles, Granary Weevils, Rice Weevils, Saw-toothed Weevils, Flat Grain Beetles, Indian Meal Moths, Confused Flour Beetles, Cadelles.

Ready to Use. Residual in Action. For Use in Bakeries and Other Food Processing Plants.

ACTIVE INGREDIENTS:

O,O-Diethyl O-(2-isopropyl-6-methyl-4-pyrimidinyl) phosphorothioate*	1.00%
Pyrethrins	.15%
Technical Piperonyl Butoxide**	.375%
Petroleum Distillate***	83.235%

INERT INGREDIENTS 15.24%

*Diazinon

**Equivalent to 0.30% of (butylcarbityl) (6-propylpiperonyl) ether and 0.075% of related compounds.

***Flash Point 176°F (TCC).

CAUTION

KEEP OUT OF THE REACH OF CHILDREN.

See side panels for additional warnings.

REVISED STANDARD CRACK AND CREVICE TREATMENT DIRECTIONS— PEST INDOORS

FOOD HANDLING ESTABLISHMENTS - Places other than private residences in which exposed food is held, processed or prepared. Do not use in serving area while food is exposed.

Equipment that can deliver a pin stream of insecticide must be used for crack and crevice treatment. A coarse wet spray using a fan type nozzle would not be appropriate for this type of treatment.

FOOD AREAS LIMITED TO (CRACK AND CREVICE TREATMENT ONLY) Includes areas for receiving, serving, storage, packing (canning, bottling, wrapping, boxing) preparing, edible waste storage and enclosed processing systems (mills, dairies, edible oils, syrups).

Apply Residual Spray No. 2 in small amounts directly into cracks and crevices using a pin stream of insecticide in points between different elements of construction, between equipment and floors, openings leading to voids and hollow spaces in walls, equipment legs and bases, conduits, motor housings, junction or switch boxes, where Roaches, Flies, Silverfish hide.

Care should be taken to avoid depositing the product onto exposed surfaces or introducing the material into the air. Avoid contamination of food or food processing surfaces.

APPLICATIONS OF THIS PRODUCT IN THE FOOD AREAS OF FOOD HANDLING ESTABLISHMENTS,

OTHER THAN AS A CRACK AND CREVICE TREATMENT ARE NOT PERMITTED.

NON-FOOD AREAS (SPOT APPLICATION) - Includes garbage rooms, lavatories, floor drains (to sewers), entries and vestibules, offices, locker rooms, machine rooms, boiler rooms, garages, mop closets and storage (after canning or bottling.)

Apply coarse spray to point of run off to baseboard areas, around water pipes, surfaces behind and beneath sinks, lockers, tables, pallets and similar areas where insects hide or through which they may enter.

Food processing plants which have pipe tunnels through which steam and other utilities enter the building from outside should have this tunnel sprayed thoroughly, top, bottom, walls and pipes. Insulated pipes are a favorite hiding place for roaches. For control of carpet beetles make repeated applications to baseboards, corners and other such surfaces where these insects tend to congregate.

CAUTION

This product is toxic to fish and wildlife. Keep out of lakes, streams or ponds. Do not contaminate water by cleaning of equipment, or disposal of wastes.

Do not reuse containers. Destroy when empty.

CAUTION

Harmful if swallowed. May be absorbed through skin. Avoid breathing dust or spray mist. Avoid contact with skin, eyes and clothing. Wash thoroughly after handling. Avoid storage near food and feed products.
