 SPRAY**
With Fast Acting DDVP

Comments

DIRECTIONS

FOR FACE FLIES: To protect animals from Face Flies, spray animals head, covering forehead, poll, muzzle and sides of face thoroughly with spray mist but do not apply more than 1 oz. to entire animal at any one spraying.

KILL STABLE FLIES, HORN FLIES, HOUSE FLIES, MOSQUITOES: For Fast paralysis and kill of pests, apply as a mist over milk cows, calves, horses, colts, mules, hogs.

Nova Dairy and Stock Spray kills stable flies, horn flies, house flies, mosquitoes, black flies and sand flies at time of spraying.

For best results, spray animals before daily milking time for 7-10 days. Apply 1 oz. per head at morning and evening milkings. Complete coverage is necessary for best possible protection. Treatments can be discontinued until flies reappear on animals.

WARNING:

Do not contaminate feed, water or foodstuffs.
 This product is toxic to fish and wildlife. Do not contaminate water by cleaning of equipment or disposal of wastes.
 Keep out of reach of children.
 Atropine is antidotal. 2-PAM is also antidotal.

ELECTRIC AND STATIONARY FOGGERS: Nova Dairy and Stock Spray is recommended for use in stationary or electric foggers. Fog about 2 fluid ozs. of spray per 1000 cubic feet. Before milking, the fog can be applied around each animal to kill flies. For best results the treated area should be closed for 10 minutes. Do not apply in areas where animals have received direct application of DDVP within 8 hours.

KILL FLEAS: Spray bedding and sleeping quarters where infested animals are housed. Repeat application if necessary.

WARNING: COMBUSTIBLE

FLASH POINT 125° F. DO NOT USE, POUR, SPILL OR STORE NEAR HEAT OR OPEN FLAME.

Do Not Reuse Container. Destroy When Empty.
 Harmful or fatal if swallowed, inhaled through the skin. In case of contact with skin or eyes flush with plenty of water, for eyes get medical attention. Keep away from open flame. Avoid contact with skin, eyes or clothing. Avoid breathing spray mist.
