**PRECAUTIONARY STATEMENTS
HAZARDOUS TO HUMANS AND DOMESTIC ANIMALS
CAUTION**

Read all directions. Avoid breathing vapors or sprays that may be emitted. Respiratory protection is required by the Mining, Enforcement and Safety Administration and the National Institute for Occupational Safety and Health under the provisions of 30 CFR Part 117. It is generally permitted to use if well-ventilated, non-enclosed working. Use immediate medical attention. Avoid contact with skin and eyes. In case of contact, immediately flush eyes or skin with plenty of water. Seek medical attention if irritation persists.

Do not apply directly to food. Do not apply to any spray while food is being handled. Do not apply to any food processing surfaces. Thoroughly wash all items which come in contact with food processing surfaces before using. After spraying in meat packing plants, bakeries and the food processing plants, wash and rinse with potable water all equipment, benches, chutes, etc., where exposed food will be handled. Food processing equipment must be cleaned while spraying a wet spray which could be carried to the drains and caustic drain pipes. Cover or seal all food processing equipment. Wash thoroughly, including drain pipes, and caustic drain pipes. Wash all dairy equipment before milking.

Remove pets, birds and other fish aquarium before spraying.

ENVIRONMENTAL HAZARDS

This product is toxic to fish. Keep out of lakes or streams ponds. Do not allow this water by cleaning of equipment or disposal of water.

PHYSICAL OR CHEMICAL HAZARDS

See label for information on fire and explosion hazards.
