DIRECTIONS FOR USE

Carpet Beetles: Make localized application to areas of the floor and baseboards. Spray directly into cracks and under carpets where insects may be found. Treat crevices, cracks or closets and infested areas of shelving. Repeat as necessary.

Brown Dog Ticks: Thoroughly spray infested areas around baseboards, window and door frames, wall cracks, sleeping quarters of household pets and localized areas of floors and floor coverings. Applications should be repeated as infestations warrant and as re-infestations occur. Fresh bedding should be placed in animal quarters following treatment. Do not treat animals with this formulation.

Flies, Mosquitoes, Wasps and Flying Moths Outdoors: For outdoor use only as an aid in reducing annoyance from these insects. Spray outside surfaces of screens, doors, window frames or wherever these insects may enter the room. Also treat surfaces around light fixtures on porches, in garages, and other places where these insects alight or congregate.

Fleas, Chiggers, Ants and Brown Ticks Outdoors: Spray weeds and brushy non-crop areas around homes and other buildings. Spray infested areas thoroughly. For ants, thoroughly wet hills and runways. Repeat applications as infestation warrants and as re-infestations occur.

KILLS RESISTANT ROACHES, ants, flies, mosquitoes, fleas (outdoors), waterbugs, wasps, brown dog ticks, silverfish, spiders, crickets, chiggers, flying moths and carpet beetles.
