

OXFORD PERMA KILL BRAND

LIQUID INSECTICIDE

Quick Knockdown Effective Kill Economical Stainless Residual

ACTIVE INGREDIENTS 99.06%
 1. Petroleum Hydrocarbon Base Oil, 2. Ronnel*, 3. N-Octyl bicycloheptene dicarboximide, 4. Piperonyl Butoxide Technical**, 5. Pyrethrins I and II,
 6. Allethrin***

INERT INGREDIENTS 0.94%
 Methylene chloride, O,O-dimethyl-O-dichloromethoxyphenyl phosphorothioates, Perfume, d-Limonene

*O,O dimethyl O-(2,4,5-trichlorophenyl) phosphorothioate, **Consists of (butylcarbityl) (6-propylpiperonyl) ether and related compounds, ***allyl homolog of cinerin I

E.P.A. Reg. No. 3635-83

DESCRIPTION

Especially formulated for the quick knockdown and kill of a wide variety of both flying insects such as Flies, Mosquitoes, Flying Moths, and Wasps, and crawling insects such as Roaches, Ants, Silverfish, Spiders, Crickets, Carpet Beetles, Waterbugs and fleas. A few of the areas of application include food processing plants, industrial plants, supermarkets, restaurants, apartment houses, warehouses, office buildings, pet quarters and waste storage areas.

DIRECTIONS

1. Space Mist Spray for kill and control of flying insects.
 - (a) Preparation of Building: Remove birds and pets from the area to be treated. Have occupants leave the room while applying mist spray. Cover exposed foods and food handling equipment to prevent contamination. Open cabinets and other enclosures to allow mist spray to penetrate all areas. Shut off all fans and air conditioners. Close all outside windows and doors. Extinguish all open flames, including pilot lights.
 - (b) Application of Spray: Using a suitable mist applicator, direct spray mist behind refrigerators, cabinets and other fixtures where

pests hide. Then place spray applicator to give complete dispersion of mist spray throughout room. Apply spray at the rate of 1 gallon per 50,000 cubic feet. A **DUST MASK OR OTHER SUITABLE EQUIPMENT TO PREVENT INHALATION OF SPRAY PARTICLES** should be worn when spraying. Leave room undisturbed for at least 2 hours after application has been completed. Ventilate area sprayed and sweep up dead insects. Wash food processing equipment with a suitable detergent and rinse with potable water prior to processing of foods. Repeat as necessary for control.

2. Residual Wet Spray for Kill and Control of Crawling Insects: Using a wet coarse spray, spray directly on insects where possible. Also spray to wet insect trails and surfaces where insects may breed or congregate, such as under sinks, drainboards, stoves, refrigerators, in cabinets, around baseboards, door sills, and frames, window frames, garbage cans, garages and out-buildings. Do not use in commercial food preparation areas or in edible products areas of food processing plants.

3. Carpet Beetles: Apply to floor areas and baseboards in a wet spray. Spray directly into cracks, crevices and under carpets where insects may be found. Treat both the underside and topside of infested carpets. Spray inside of trunks, closets and infested areas of shelving.

4. Flying Insects: Spray surfaces until wet where these insects alight or congregate such as walls of porches, garages, house foundations and waste storage areas.

5. Fleas and Ants: Spray directly on insects where possible. Apply thoroughly onto floors, walls, carpets, cracks, crevices and sleeping quarters of animals. For ants, thoroughly wet hills and runways. Repeat as necessary for control.

6. Treated areas must be thoroughly ventilated before re-entry. This product is toxic to fish. Keep out of lakes, streams or ponds. Do not contaminate water by cleaning of equipment, or disposal of wastes. Apply this product only as specified on this label.

CAUTION KEEP OUT OF REACH OF CHILDREN

DO NOT USE, POUR, SPILL OR STORE NEAR HEAT OR OPEN FLAME.

Remove Bird Cages and Fish Bowls From Rooms Being Sprayed. Harmful if swallowed. Avoid prolonged breathing of spray mist. Avoid contact with skin. Wash thoroughly after using. Avoid contamination of feed and foodstuffs. Do not use in food processing plant while plants are in operations. NOTE TO PHYSICIANS: Ronnel is a cholinesterase inhibitor. Atropine is an antidote. Treat symptomatically. Do not reuse empty drum. Return to drum reconditioner or destroy by perforating or crushing and burying in a safe place.
