

# OXFORD DYNA-KILL

## Concentrated Oil Soluble Insecticide

Especially formulated for use in thermal fog generators for the kill and control of flies, mosquitoes and small flying insects in outside areas. May also be used as a wet coarse spray to kill and control crawling insects such as roaches, waterbugs and ants.

**ACTIVE INGREDIENTS** . . . . . 98.8%

1. Aromatic Petroleum Distillates 63.8%, 2. Chlordane Technical\* 23.0%, 3. Malathion\*\* 10.9%, 4. Ronnel\*\*\* 1.1%

**INERT INGREDIENTS** . . . . . 1.2%

Equivalent to 13.8% Octachloro-4,7-methanotetrahydroindane and 9.2% of related compounds \*\*O,O-dimethyl dithiophosphate of diethyl mercaptosuccinate

\*\*\*O,O-dimethyl O-(2,4,5-trichlorophenyl) phosphorothioate

USDA Reg. No. 3635-99

### DESCRIPTION

DYNA KILL is a concentrated insecticide particularly suitable for use in killing and controlling flying insects (mosquitoes, flies, small flying insects) in outside areas of municipalities and industrial plants when applied with a suitable thermal fog generating machine. Also excellent for killing and controlling roaches, waterbugs and ants in inside areas.

### DIRECTIONS

1. Outside Kill of Mosquitoes, Flies and Small Flying Insects: Dilute 1 part concentrate with 25 parts fuel oil or kerosene. Using a thermal fog generating machine, apply as an area spray at the rate of 2 1/2 gallons per acre. Allow the fog to float down the wind into tall grass, shrubbery, and other places where mosquitoes, flies and small flying insects alight or congregate.

2. Outside Kill of Mosquitoes in Standing Waters: (Use this dosage in intermittently flooded areas, stagnant water, and temporary rain pools.) Dilute as in part (1) and apply in a similar manner and at a similar rate. Ground or air equipment may be used for large areas.

3. Kill and Control of Crawling Insects Such as Roaches, Waterbugs and Ants. Prepare a dilution of 1 part concentrate to 15 parts kerosene. Apply dilution as a wet coarse spray using a suitable sprayer to manure piles, rubbish piles, garbage cans and other similar areas where these crawling insects run or harbor. This same dilution may also be used inside as a wet spray along baseboards, under sinks, around door and window facings and into cracks and crevices where insects may hide or harbor.

This product is toxic to fish, wildlife and birds. Keep out of lakes, streams or ponds. Shrimp and crab may be killed at application rates recommended on this label. Do not apply where these are important resources.

**CAUTION**  
**Keep out of Reach of Children**

Do not apply when weather conditions favor drift from areas treated.  
Do not apply where runoff is likely to occur.  
Do not contaminate water by cleaning of equipment, or disposal of wastes.  
Apply this product only as specified on this label.

Harmful if swallowed. Avoid contact with skin; can cause toxic symptoms. May be absorbed through skin. In case of contact, wash immediately with soap and water. Avoid breathing of spray mist. Combustible. Do not smoke while spraying. KEEP CONTAINER CLOSED AND AWAY FROM AND OPEN FLAME.

Do not use on household pets and humans.

Avoid contamination of feed and foodstuffs. Do not use in commercial food preparation areas or in edible products areas of food processing plants. Do not apply to food crops.

Do not reuse empty drum. Return to drum reconditioner or destroy by perforating or crushing and burying in a safe place.
