Ms. Susan I. Woodruff  
Oxford Chemicals, Inc.  
P.O. Box 80202  
Atlanta, GA 30366

Dear Ms. Woodruff:

Subject: Oxford D'Germ  
EPA Registration No. 3635-115  
Your Resubmission of December 11, 1991

This is in response to your resubmission of the above date regarding a formulation change and revised labeling for this product.

The labeling referred to above, submitted in connection with registration under the Federal Insecticide, Fungicide, and Rodenticide Act, as amended, is acceptable. A stamped copy is enclosed for your records.

The revised Confidential Statement of Formula agrees with the label and is acceptable.

- For our records, please ask your supplier of the dye "Alphazurine FGND Conc. 20%" to submit to this Agency complete chemical composition, CAS Reg. No., CI Number, chemical name and Material Safety Data Sheet and Health Effects.

If you have any questions, please contact Ms. Barbara Pringle at (703) 305-6484.

Sincerely yours,

Ruth G. Douglas  
Product Manager (32)  
Antimicrobial Program Branch

**Staphylocidal • Fungicidal • Pseudomonacidal • Virucidal Disinfectant — Toilet — Urinal Cleaner**

For use in Institutions, hospitals, clinics, schools, industrial plants, food processing plants, restaurants, and health spas.

## DIRECTIONS

It is a violation of Federal law to use this product in a manner inconsistent with its labeling.

For toilets — It is not necessary to remove the water from the bowl.

One (1) ounce is sufficient to remove soils, rust, lime, scale and uric deposits, disinfect and deodorize.

First remove heavy soil. Open flip cap, invert bottle and, with light pressure, direct stream completely around underneath side of toilet bowl rim. Allow at least 10 minutes contact time for surface to be cleaned and disinfected. Wet bowl mop in solution and swab all surfaces including under the rim and seat and lid. Rinse. Repeat application for cleaning heavily encrusted deposits.

On solid porcelain urinals — Place bowl mop over drain. Add enough water to make a solution and follow the same procedure as for toilet bowls. OXFORD D'GERM Disinfectant will not damage solid porcelain china or vitreous ware.

Shower Stalls — Glazed or other ceramic tile and grouting may be cleaned without damage. Remove heavy soil. Clean with a sponge, mop, or towel wetting all surfaces thoroughly. Use one ounce in a gallon of water, allow 10 minutes contact time for surface to be cleaned and disinfected, rinse thoroughly.

OXFORD D'GERM Disinfectant may be used on most metals (including aluminum and stainless steel) at 1 ounce per gallon of water. Rinse thoroughly. Septic tanks will not be affected.

For Commercial and Industrial Use Only

## ACTIVE INGREDIENTS:

Phosphoric acid ..... 22.50%  
Hydrogen chloride ..... 4.71%

## INERT INGREDIENTS:

..... 72.79%  
TOTAL ..... 100.00%
