

File 697

OXFORD FORMULA "C"
Disinfectant Sanitizer Concentrate

PURPOSE

Disinfects, deodorizes and sanitizes all environmental surface areas such as food processing equipment, cooking utensils and glassware.

SURFACES APPLICABLE

Glassware, dishes, food processing equipment, dairy equipment, fabrics, floors and walls, beauty parlors and barber shop equipment.

WHERE USED

Hospitals, food processing plants, restaurants, dairies, institutions, barber shops, beauty parlors, or anywhere sanitizing of a hard surface is required or desired.

PROPERTIES

Light yellow, mobile liquid with a neutral pH containing 10% active quat as n-Alkyl (60% C14, 30% C16, 5% C12, 5% C18) dimethyl benzyl ammonium chlorides (5%) and n-Alkyl (68% C12, 32% C14) dimethyl ethylbenzyl ammonium chlorides (5%).

HOW USED

GENERAL: Prior to sanitation or disinfection, clean all surfaces with a suitable detergent and rinse thoroughly with potable water. Consult Oxford Chemicals regarding the specific detergent needed for each particular application. Follow the recommendation of your local Health Department regarding sanitation and disinfection of surfaces.

DISINFECTION SOLUTION: In Hospitals, public rooms, and homes, clean surfaces with detergent and rinse thoroughly. Use 3½ oz. FORMULA C to 5 gallons of water. This solution will be effective against *Pseudomonas aeruginosa* PRD-10.

SANITATION OF MEAT PACKAGING AND FOOD PROCESSING EQUIPMENT: Clean and rinse equipment thoroughly, then apply sanitizing solution of 1 oz. FORMULA C per 4 gallons of water. No rinse required.

SANITATION OF DAIRY EQUIPMENT: Clean and rinse equipment thoroughly, then apply sanitizing solution of 1 oz. FORMULA C per 4 gallons of water. No rinse required.

RESTAURANTS AND BAR RINSE: Dishes, glassware, silverware, cooking utensils, wash with soap or synthetic detergent, rinse thoroughly and then immerse in a solution containing 1 oz. FORMULA C to 4 gallons of water (195 ppm).

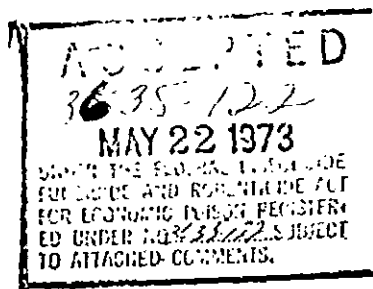

SANITATION OF FABRICS: Agitate in a solution containing 1 oz. concentrate per gallon of water to disinfect linen and clothing. To render diapers and other linens bacteriostatic and to retard development of ammonia, immerse in solution of 1 oz. concentrate per 10 pounds of cloth.

SANITATION OF BEAUTY PARLOR AND BARBER SHOP EQUIPMENT: Soak combs, brushes, razors, etc., for 10 minutes in solution of 1 oz. concentrate per gallon of water.

Rinse empty container thoroughly with water and discard.

ADVANTAGES

- Non-volatile
- Non-flammable
- Accepted by USDA Consumer and Marketing Service for use in federally inspected meat and poultry processing plants for its intended purpose
