1. Flies and Mosquitoes: Close doors and windows. Direct spray towards ceiling and fill entire room with fog. Keep room closed for 10 to 20 minutes. Sweep up and destroy fallen insects. Repeat treatment as frequently as required.

2. Cockroaches, Waterbugs, Silverfish: Thorough and repeated spraying of the infested area should be done, hitting as many of the insects as possible. Pay particular attention to spraying in cracks, crevices, baseboards and other hiding places.

3. Fleas Infesting Premises: Can be controlled quickly and effectively by spraying floors and cracks of the infested areas. Fleas lurk in carpets and upholstered furniture. Spray liberally in these areas, as well as in baseboards, wall cracks and sleeping quarters of animals for direct contact with these pests.

4. Spiders: Spray directly into or on spider webs with as wet a spray as possible. Also spray directly on all visible spiders with a wet spray.

For use in Meat Packing Plants, Bakeries, Food Processing Plants, Warehouses, Boxcars, Poultry Plants, Restaurants, Super Markets, Bottling Plants milk handling areas of milk, cheese, and ice cream plants . . . . . Wherever food products are made, stored, shipped or handled. Recommended for use in Hotels, Motels, Institutions, Theaters, Hospitals, Transportation Facilities, Trains, Buses, Planes.

Super Brand Insecticide kills flies, mosquitoes, roaches, waterbugs, fleas, silverfish, and spiders that are contacted by the product.

May be used undiluted or can be diluted 1:1 with Oxford 7481, Special Base Carnar, and yield an AA grade fly spray, CS 72-54.

Noncorrosive and nondeleterious to equipment, machinery and utensils. Modern insect control requires regular treatment and good housekeeping.

NOTE: In hospitals, patients should be removed prior to treatment. Do not return patient to room until after ventilation.
