

[3635-145]

AN-O-TOX #3246

ACTIVE INGREDIENTS 1.00

* Technical Piperonyl Butoxide, Petroleum Hydrocarbons, Pyrethrin
* Consists of (Butylarbutyl) 6-Propylpiperonyl Ether and related compound.

USDA REG. NO. 3635-145

CAUTION

KEEP OUT OF REACH OF CHILDREN

Harmful if swallowed. Avoid contamination of food. Do not spray near open flame nor smoke while spraying. Do not use in poultry houses. Stay outside treated building until aired.

This product is toxic to fish. Keep out of lakes, streams, or ponds. Do not contaminate water by cleaning of equipment, or disposal wastes. Do not reuse empty drum. Return to drum reconditioner or destroy by perforating or crushing and burying in a safe place.

DO NOT USE, POUR, SPILL OR STORE NEAR HEAT OR OPEN FLAME

DESCRIPTION

For use in dairies, meat packing plants, dairy barns, flour mills, food processing plants, granaries, warehouses, stables, boxcars, poultry plants, restaurants and supermarkets - wherever food products are made, stored, shipped or handled. Recommended for use in hotels, motels, institutions, theaters, hospitals, trains, buses and planes. An-O-Tox No. 3246 kills flies, mosquitoes, roaches, waterbugs, fleas, silverfish, exposed stages of flour weevils, grain beetles, flying moths, gnats, wasps and spiders that come in contact with the product.

Do not apply as a space spray in food processing areas when these areas are in operation. Remove or cover exposed foodstuffs while spraying. After spraying, thoroughly wash all surfaces on which spray may have deposited and rinse with potable water.

DIRECTIONS

1. Flies, mosquitoes, flying moths: Dilute An-O-Tox at 1-2 gal. per 100 gal. of petroleum oil. Close doors and windows. Direct spray toward ceiling and fill entire room with mist. Room closed 10-15 minutes. Do not remain in treated area. Ventilate the area after treatment is completed.
2. Roaches, waterbugs, silverfish, ants: Dilute 1-2 gal. per 100 gal. petroleum oil. Repeated spraying of the infested area should be done, hitting as many of the insects as possible. Spray under window sills, cracks, crevices and baseboards. Repeat applications as necessary for control.
3. Spiders: Use 1-2 gal. per 100 gal. petroleum oil, and spray directly onto spiders and on spider webs with as wet a spray as possible.
4. Weevil, cadelle and confused flour beetles, flour moths in exposed or accessible stages: Floors, walls and partitions in flour mills, feed mills, food processing plants, empty train bins and boxcars should be sprayed with a dilution of 1-2 gal. in 100 gal. of petroleum oil. For dilution in water, add 1% pounds of Emulsifier R320.
