DUST MOP TREATMENT

● Bacteriostatic ● Nonflammable ● Cleans ● Polishes ● Protects

DESCRIPTION

DMT is a ready to use, nonflammable liquid. The use of dust mops treated with this product replaces sweeping compounds and eliminates the dust created by sweeping with push brooms. DMT treated mops absorb dust and small particles of soil. DMT is not slippery when walked on and will not damage floor surfaces when used as directed. DMT enhances the appearance of floors of all types. DMT treated mops may be used on all hard or soft tile surfaces, such as Asphalt Tile, Linoleum, Vinyl, Vinyl Asbestos, Rubber Tile as well as Terrazzo, Marble, Ceramic, Concrete, Quarry Tile, Magnesite, Cork and Wood. DMT treated cloths are suited to clean and polish furniture, painted, plastic, and formica surfaces. While DMT attracts and absorbs dust, most soil can be shaken free from the mop, extending the mop life. Dust mops impregnated with DMT are easily laundered and will wash clean with soapy solution. DMT is adaptable for use on air filters.

ACTIVE INGREDIENTS: n-Alkyl (60% C₁₄, 30% C₁₆, 5% C₁₂, 5% C₁₈) dimethyl benzyl ammonium chlorides ..0.625%. n-Alkyl (68% C₁₂, 32% C₁₄) dimethyl ethylbenzyl ammonium chlorides. 0.625%.
INERT INGREDIENTS* 98.750%
*The inert ingredients contain detergents, coalescing, wetting and emulsifying agents, essential oil, color.

EPA Reg. No. 3635-179

Will Not Damage Floor Surfaces

CAUTION

KEEP OUT OF REACH OF CHILDREN

Harmful if swallowed. Avoid contact with eyes. In case of contact, immediately flush eyes or skin with plenty of water for at least 15 minutes. Do not breathe spray mist. May be irritating to sensitive or abraded skin. Rinse empty container thoroughly with water and discard it.

ACCEPTED

7-18-72

UNDER THE FEDERAL INSECTICIDE
FUNGICIDE AND RODENTICIDE ACT
FOR ECONOMIC POISON REGISTERED
ED UNDER NO. 3635-129

DMT is suited for use in hospitals, schools, institutions, hotels, motels, office buildings and bowling alleys.

DIRECTIONS

DMT is ready to use, always use full strength. DMT imparts bacteriostatic activity to dust mops and cloths, which aids in the control of dust borne bacteria in the mops and cloths. Initial Treatment of Mop—For light cotton strands—use 1 oz. of DMT for each inch of mophead length. For heavy strands use 1 oz. Pour material uniformly over entire length of mophead. Allow liquid to penetrate mop strands. Best results are obtained by allowing mop to cure overnight before using. Daily Mop Treatment—Shake out loose soil from mop. Treat with 2 oz. of DMT for every 8 inches of mophead length. Allow mop to cure overnight. Do not allow to become wet. **USE SPARINGLY AS DIRECTED FOR BEST RESULTS.** For Furniture, Painted, Plastic and Formica Surfaces—Dip dust cloth in DMT, wring out excess, or spray on with spray dispenser. Rub thoroughly over surface to be cleaned and polished. Polish to a bright, hard, protective finish with a clean, soft, dry cloth.
