SIGNATURE OF APPROVING OFFICIAL	DATE						

in an NPDES permit. Do not discharge effluent containing this product to sewer systems without previously notifying the sewage treatment plant authority. For guidance contact your State Water Board or Regional Office of the EPA.

- c. Include the following statements:

Physical or Chemical Hazards

Flammable. Keep away from heat and open flame.

- d. Delete the statement: GENERAL CLASSIFICATION.

- e. Delete the statement:

Fabrics treated with recommended use concentrations of OXFORD 1235 were found to be nonirritating to human skin.

Note: Safety claims are not permitted.

- f. Delete the statement: "Sample label only"

- g. Revise the statement:

2 teaspoons

to read:

2 tablespoons

Note: One fluid ounce equals 2 tablespoons

- h. Include the reference asterisk (*) next to the statement "Residual Bacteriostatic Activity" (front panel).

3. Submit five (5) copies of your final printed labeling before you release the product for shipment. Refer to the A-79 Enclosure for a further description of final printed labeling.

4. If these conditions are not complied with, the registration will be subject to cancellation in accordance with FIFRA section 6(e). Your release for shipment of the product constitutes acceptance of these conditions.

A stamped copy of the label is enclosed for your records.

Bacteriostatic Laundry Softener Concentrate

PRECAUTIONARY STATEMENTS Hazards to Humans and Domestic Animals

DANGER

Keep Out of Reach of Children. Corrosive. Causes severe eye and skin damage. Do not get in eyes, on skin, or on clothing. Wear goggles or face shield and rubber gloves when handling. Harmful or fatal if swallowed. Avoid contamination of food. Do not use, pour spill or store near heat or open flame.

Environmental Hazards

This product is toxic to fish. Treatment effluent should not be discharged where it will drain into lakes, streams, ponds, or public water.

DIRECTIONS FOR USE

General Classification

It is a violation of Federal Law to use this product in a manner inconsistent with its labeling

STORAGE AND DISPOSAL

DO NOT CONTAMINATE WATER, FOOD, OR FEED BY STORAGE DISPOSAL. DO NOT STORE ON SIDE. AVOID CREASING OR IMPACTING OF SIDE WALLS.

PESTICIDE DISPOSAL: Pesticide wastes are acutely hazardous. Improper disposal of excess pesticide, spray or mixture of rinsate is a violation of Federal Law. If these wastes cannot be disposed of by use according to label instructions, contact your State Pesticide or Environmental Control Agency, or the Hazardous Waste representative at the nearest EPA Regional Office for guidance.

CONTAINER DISPOSAL: Triple rinse (or equivalent). Then offer for recycling or reconditioning or puncture and dispose of in a sanitary landfill, or incineration, or, if allowed by state and local authorities by burning. If burned, stay out of smoke.

Metal Container: Triple rinse (or equivalent), then offer for recycling or reconditioning, or dispose of in a sanitary landfill, or by other procedures approved by state and local authorities.

Do not reuse empty container (bottle, can, bucket). Wrap container and put in trash.

I.C.C.: Softeners, Textile, N.O.I.

Based On Twin Chain Quaternary Ammonium Compounds Commercial Laundry Softener With Residual Bacteriostatic Activity

ACTIVE INGREDIENTS:

Octyl decyl dimethyl ammonium chloride . . .	15.0%
Dioctyl dimethyl ammonium chloride . . .	7.5%
Didecyl dimethyl ammonium chloride . . .	7.5%
INERT INGREDIENTS	70.0%

TOTAL 100.0%

*Under humid or wet contamination conditions. See left panel for further comment.

KEEP OUT OF REACH OF CHILDREN DANGER

Statement of Practical Treatment

In case of contact, immediately flush eyes or skin with plenty of water for at least 15 minutes. For eyes, call a physician. Remove and wash contaminated clothing before reuse.

If swallowed, drink promptly a large quantity of milk, egg whites, gelatin solution; or if these are not available, drink large quantities of water. Avoid alcohol. Call a physician immediately.

NOTE TO PHYSICIAN: Probable mucosal damage may contraindicate the use of gastric lavage. Measures against circulatory shock, respiratory depression, and convulsion may be needed.

See Left Panel For Additional Precautionary Statements

DIRECTIONS FOR USE (Continued)

To soften laundered fabrics and obtain residual bacteriostatic activity against gram negative and/or gram positive odor-causing bacteria, use 1.00 fluid ounce (2 teaspoons) per 100 pounds of fabric (dry weight.)

Dilute the appropriate amount of OXFORD 1235 in one to two gallons of water; then add to the wash-wheel in the final rinse.

Retreat fabric after each washing.

OXFORD 1235 is based on a highly-active mixture of three *Twin Chain* quaternary ammonium compounds together with an effective fabric softener.

Soiled and contaminated fabrics such as diapers, hospital and institutional linen and athletic equipment is a major housekeeping problem not only in hospitals but in institutions, hotels, restaurants and schools. Used as directed OXFORD 1235 imparts an effective residual bacteriostatic treatment together with softening to laundered items such as diapers, hospital and institutional linens and apparel. This finish will effectively protect the fabric against rapid bacterial growth caused by moist and wet contamination.

OXFORD 1235 is designed for commercial and institutional laundry use by addition to the final rinse. Laundered fabric may also be treated and softened by soaking in a solution of OXFORD 1235. For recommended solution concentration, see Directions For Use.

Fabrics treated with recommended use concentrations of OXFORD 1235 were found to be non-irritating to human skin.

OXFORD 1235 Bacteriostatic Laundry Softener Concentrate is economical to use because it is concentrated. It should be handled with care.
