NOTE: Changes in labeling formula differing in substance from that accepted in connection with this registration must be submitted to and accepted by the Registration Division prior to use of the label in commerce. In any correspondence on this product always refer to the above U.S. EPA registration number.

On the basis of information furnished by the registrant, the above named pesticide is hereby Registered/Reregistered under the Federal Insecticide, Fungicide, and Rodenticide Act.

A copy of the labeling accepted in connection with this Registration/Reregistration is returned herewith.

Registration is in no way to be construed as an indorsement or approval of this product by this Agency. In order to protect health and the environment, the Administrator, on his motion, may at any time suspend or cancel the registration of a pesticide in accordance with the Act. The acceptance of any name in connection with the registration of a product under this Act is not to be construed as giving the registrant a right to exclusive use of the name or to its use if it has been covered by others.

This registration is conditional under section 3(c)(7)(a) of FIFRA subject to the following conditions:

1. It is understood that you will submit/cite all data required for registration/reregistration of your product under section 3(c)(5) of FIFRA when the Agency requires all registrants of similar products to submit such data.

2. Submit the following data or information before you release this product for shipment.

    a. A description of the formulation process including temperatures, mixing equipment, time, and other variables.

    b. Since petroleum distillate is listed as an active ingredient and you are using the "Formulators' Exemption," you must cite a registered product by EPA Registration Number as the source of the petroleum distillate.

EPA Form 8570-6 (Rev. 5-76)　　　　PREVIOUS EDITION MAY BE USED UNTIL SUPPLY IS EXHAUSTED.

3. The following revisions apply to the proposed (draft) label for this product. The finished printed labels under which this product will be marketed must reflect these revisions.

    a. Under "Container Disposal" add the statement:

        Empty container completely before disposing.

    b. Based on the Confidential Statement of Formula (CSF) dated October 27, 1986, your product will not meet the label claim for the active ingredients. Revise the label or the CSF. The lower certified limits on the CSF for the active ingredients (not the concentrate) must be equal to the amounts of active ingredients declared on the label.

    c. The Registration Number has to appear on the label as FPA Registration No. 3635-252.

4. You must submit five copies of finished printed labels before you release the product for shipment, as required by PR Notice 82-2 of June 18, 1982. Your finished printed labels must also comply with the general labeling requirements of 40 CFR 162.10. Refer to the A-79 Enclosure for a description of finished printed labeling.

A stamped copy of the draft label is enclosed for your records. Your release of the product for shipment constitutes acceptance of these conditions. If these conditions are not complied with, the registration will be subject to cancellation in accordance with section 6(e) of FIFRA.
