in EPA Letter Dated:

NOV 23 1998

Under the Federal Insecticide,
Fungicide, and Rodenticide Act as
amended, for the pesticide,
registered under EPA Reg. No. 3635-279

PRECAUTIONARY STATEMENTS (continued)

ENVIRONMENTAL HAZARDS: Do not discharge effluent containing this product into lakes, streams, ponds, estuaries, oceans or other waters unless in accordance with the requirements of a National Pollution Discharge Elimination System (NPDES) permit and the permitting authority has been satisfied in writing prior to discharge. Do not discharge effluent containing this product to sewer systems without previously notifying the local sewage treatment plant authority. For guidance contact your State Water Board or Regional Office of the EPA.

STORAGE AND DISPOSAL:

DO NOT CONTAMINATE WATER. FOOD OR FEED BY STORAGE OR DISPOSAL. OPEN BOTTING IS PROHIBITED.
D. USE ONLY CONTAINER. DO NOT USE YOUR SPILL OR STAIN REMEDIAL OR OTHER (LAW).
PL. DISPOSAL: Wastes resulting from the use of this product may be disposed of on site or at an approved waste disposal facility.
CONTAINER DISPOSAL: PLASTIC: Triple rinse (or equivalent). Then offer for recycling or reconditioning, or incinerate and dispose of in a sanitary landfill, or incineration or, if all other methods are not available, by burning. If burned, stay out of smoke.

DIRECTIONS FOR USE:

It is a violation of Federal law to use this product in a manner inconsistent with its labeling.
For toilets - It is not necessary to remove the water from the bowl.
The product is sufficient to remove soils, rust, lime, scale and wax deposits, disinfectant and toilet.
Use a special applicator or flip cap bottle. Open flip cap, insert bottle end, with light pressure, direct stream of at least one ounce completely around underneath side of toilet bowl rim. Wet bowl not with solution and scrub all surfaces above and below the water line including

DIRECTIONS FOR USE (continued)

suet and lid. Allow at least 10 minutes contact time for surface to be cleaned and disinfected. Rinse. Repeat application for cleaning heavily encrusted deposits.

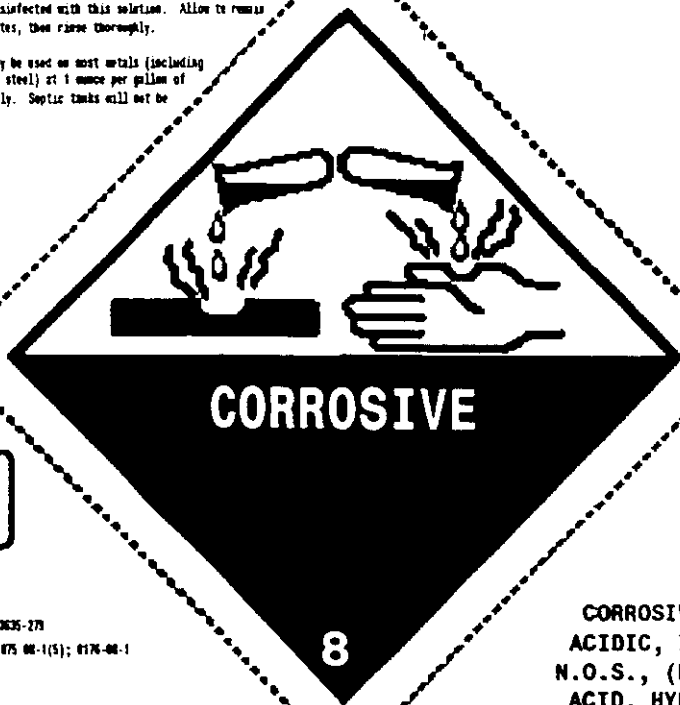

On Solid Porcelain Urinals - Place bowl cap over drain. Add enough water to make a solution and follow the same procedure as for toilet bowls. D'Germ Disinfectant will not damage solid porcelain china or vitreous ware.

Shower Stalls - Glazed or other ceramic tile may be cleaned without damage. To clean and disinfect glazed ceramic tile and other hard, non-porous surfaces, use one ounce in a gallon of water, allow 10 minutes contact time for surface to be cleaned and disinfected, rinse thoroughly.

To disinfect previously cleaned surfaces against *Trichophyton interdigitale* (Athlete's foot fungus), use 1-3/4 ounces in a gallon of water (1:2).

Soak surfaces to be disinfected with this solution. Allow to remain in contact for 10 minutes, then rinse thoroughly.

D'Germ Disinfectant may be used on most metals (including aluminum and stainless steel) at 1 ounce per gallon of water. Rinse thoroughly. Septic tanks will not be affected.
