## 3951-TX Fungicidal Double Planking Compound

NET CONT. 128 FL. OZS. (1 GAL.)

### 3951-TX Fungicidal Double Planking Compound

Pigment: 37.3%  
 100% Magnesium Silicates  
 Vehicle: 38.2%  
 100% Hardened Rosin, Ester Gum,  
 Tung, Linseed and Soya Oils,  
 Petroleum Plasticizers, Chloro-  
 phenols, Copper Naphthenate  
 Volatile: 24.5%  
 37% Aromatic Thinners  
 63% Petroleum Thinners

Active Ingredients	By Weight	100.0%
Pentachlorophenol	2.80%	
4-and 6-Chloro-2-phenylphenol	1.85%	
Other Chlorophenols	.33%	
Copper (in Basic Copper Naphthenate) As metallic	.20%	
Inert Ingredients	94.82%	
		100.00%

MANUFACTURED BY THE DOLPHIN PAINT & CHEMICAL COMPANY TOLEDO 3, OHIO, U

**QUALITY PRODUCTS SINCE 1885**

**3951-TX FUNGICIDAL**

An elastic compound designed primarily for waterproofing and preserving double planked wood boats, either with or without canvas. Contains Pentachlorophenol and other fungicidal ingredients that will retard and, when used in ample quantity, provide the best protection against dry rot and decay due to moisture and/or fungus growth.

Not affected by atmospheric changes; will not become soft and ooze in warm temperatures or become hard and brittle and crack out in cold temperatures. In double planked construction without canvas, use straight from the can.

Apply with a serrated trowel or a brush in a sufficient thickness to completely protect both layers of planking.

In construction where a canvas inner liner is used, thin approximately 20% with Dolfinite 1481-TX Thinner. The use of any other material could destroy the fungicidal properties.

**CAUTION: CONTAINS XYLOL, PENTACHLOROPHENOL AND PETROLEUM DISTILLATE.** Keep away from heat, sparks and open flame. Avoid contact with skin and breathing of vapor. Contaminated shoes and clothing should be removed promptly and skin thoroughly washed with soap and water. Use with adequate ventilation. Close container after each use.

**ANTIDOTE: IF SWALLOWED, do not induce vomiting. CALL PHYSICIAN IMMEDIATELY!**

**IF ON SKIN:** In case of prolonged contact, immediately wash skin with soap and warm water.

**EYES:** For eyes, flush with plenty of water for at least 15 minutes and get medical attention.

U. S. D. A. Registration No. 3658-B
