NO-PEST[®] INSECTICIDE MINISTRIP FOR CLOTHES MOTHS AND FLYING INSECTS

DIRECTIONS FOR USE

It is a violation of Federal law to use this product in a manner inconsistent with its labeling.

DISPOSAL

Wrap used strip and place in trash.

For best results, first wrap your No-Pest Ministrip. Do not remove strip from foil envelope until ready to use.

GENERAL: For control of flies, gnats, mosquitoes and other small flying insects in homes or other enclosed areas, suspend one No-Pest Ministrip per 100 cubic feet. Weather and other conditions such as extreme drafts may alter the performance of the No-Pest Ministrip, but this treatment is usually effective for two to three months. Replace when effectiveness diminishes.

CLOTHES MOTHS AND CLOTHES CLOTHES: For control of clothes moths, black carpet beetle larvae, and the reduction of silverfish in clothes or storage chest, up to 100 cubic feet in a closet, suspend one No-Pest Ministrip. Do not place unprotected strip in direct contact with fabrics. Weather and other conditions such as high humidity may alter the performance of the No-Pest Ministrip but this treatment is usually effective for two months. Replace in two months.

BEST DOCUMENT AVAILABLE

GARBAGE CANS: For control of flies, gnats, and roaches, attach one NO-PEST Ministrip inside each average-sized garbage can (24-gallon capacity). Keep 11d on garbage can. One unit will be effective for an entire fly season.

CABINETS & SMALL SPACES: For the aid in control of roaches, silverfish and black carpet beetle larvae in cabinets and small spaces up to 100 cubic feet in capacity, suspend one No-Pest Mini Strip. Replace in two months.

METER BOXES: For control of roaches in tight electric and water meter boxes, place one NO-PEST Ministrip on the bottom of each box. One unit should be effective for one to two months. Replace strip when effectiveness diminishes.

CAMP-SITES USES

TENTS, HOUSE TRAILERS, CABINS, ENCLOSED OUTDOOR LATRINES, AND CAMPING AREAS: For control of flies, gnats, mosquitoes and other small flying insects, suspend one NO-PEST Ministrip per 200 cubic feet of enclosed area. In large tents, cabins, or trailers, more than one unit will normally be required. Weather or other conditions such as extreme ventilation or strong drafts may later the performance of the NO-PEST Ministrip but this treatment is usually effective for three months. Replace if effectiveness diminishes.

GARBAGE-CANS IN CAMPING AREAS: See directions under Household Uses.

PRECAUTIONARY STATEMENTS HAZARDS TO HUMANS AND DOMESTIC ANIMALS CAUTIONS

Do not get strip in mouth; harmful if swallowed. Wash hands thoroughly with soap and water after handling strip. Do not place in hospital or clinic rooms, such as patients' rooms, wards, nurseries, operating or emergency areas. Do not use in any room where infants, the sick or aged are or will be present for any extended period of confinement. Do not use in kitchens, restaurants, or areas where food is prepared or served.
