FARM STRIP Insecticide

DIRECTIONS FOR USE

It is a violation of Federal law to use this product in a manner inconsistent with its labeling.

STORAGE & DISPOSAL

Do not contaminate water, food, or feed by storage or disposal. Disposal: Wrap used strip and place in trash.

GENERAL DIRECTIONS

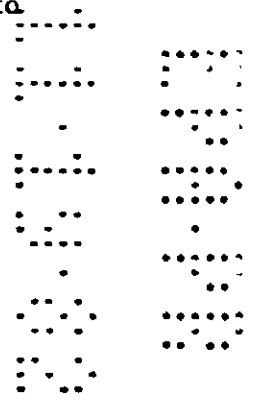

TEXIZE Farm Strip Insecticide is a specially prepared insecticidal formulation for use in control of resistant and non-resistant insects. Use one Farm Strip® per 1000 cu. ft. of enclosed area. Do not hang in strong drafts or doorways. Weather and excessive ventilation may reduce effectiveness. Replace with new strip when effectiveness diminishes.

DIRECTIONS FOR APPLICATION

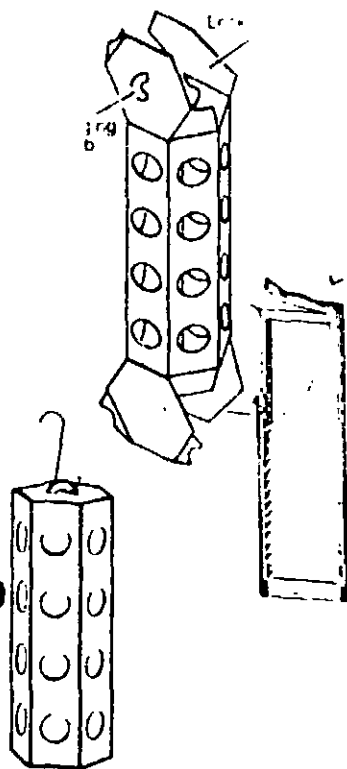

ANIMAL BUILDINGS AND HOMES: For the control of flies, gnats and adult mosquitoes in animal buildings (horse barns, dairy barns, calf barns, shelter sheds, stables, pig parlors, poultry houses and dog kennels) other farm buildings and homes, apply one strip per 1000 cubic feet of enclosed area.

MILK ROOMS: For the control of flies, gnats and adult mosquitoes in milk rooms and bulk milk storage rooms, suspend one strip per 1000 cubic feet of enclosed areas.

NON-PERISHABLE BULK STORED RAW AGRICULTURAL COMMODITIES (Including Soybeans, Corn, Grains, Cocoa Beans and Peanuts): For the control of Indian Meal Moths, almond moths, warehouse or cocoa moths and Mediterranean Flour Moths infesting non-perishable bulk stored raw agricultural commodities, suspend one strip per 1000 cubic feet of air space over the commodity before moths begin to merge in early spring. Replace strips immediately when effectiveness diminishes to prevent egg laying and growth of larvae.

HOW TO ASSEMBLE - This package contains three parts.

HOLDER(A)

(1) Press outer edges of holder(A) to form as shown. Push out hanging tab on top flap and fold locking edges down before forming top. Fold over top flaps (small flaps first) and engage locking edges firmly into holder. Do not attempt to open top once it has been locked.

ENVELOPE WITH STRIP(B)

(2) Cut open envelope(B) with scissors. Remove NO-PEST® Strip and place inside holder through open bottom. Fold down locking edges form and lock bottom of holder. Do not allow the strip to touch textiles or painted surfaces--it may stain.

METAL HANGER(C)

(3) To hang unit, attach metal hanger (C) to the tab on top of holder.

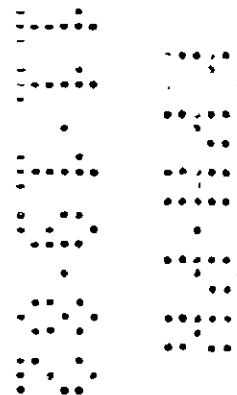

**PRECAUTIONARY STATEMENTS
HAZARDS TO HUMANS AND DOMESTIC ANIMALS
CAUTION:**

Do not get strip in mouth; harmful if swallowed. Wash hands thoroughly with soap and water after handling strip. Do not place in hospital or clinic rooms, such as patients' rooms, wards, nurseries, operating or emergency areas. Do not use in any room where infants, the sick or aged are or will be present for any extended period of confinement. Do not use in kitchens, restaurants, or areas where food is prepared or served.

P.O. Box 368, Laurens Road
Greenville, SC 29602

Dear Mr. Long:

Subject: Amendment - Update Label following transfer, minor inert
ingredient change
Texize Farm Strip Insecticide
EPA Registration No. 3696-121
Your Application Dated November 17, 1983

The labeling referred to above, submitted in connection with registration under the Federal Insecticide, Fungicide and Rodenticide Act, as amended, is acceptable. A stamped copy is enclosed for your records.

The amendments referred to above, submitted in connection with registration under the Federal Insecticide, Fungicide, and Rodenticide Act (FIFRA), are acceptable, provided that you make the following revisions prior to releasing the product for shipment bearing the amended labeling.

1. Relocate "KEEP OUT OF REACH OF CHILDREN" above the signal word "CAUTION."
2. Please refer to the enclosed type size guide for assistance in selecting the correct print size for the front panel signal word, child hazard warning, and the heading "Storage and Disposal."
3. Relocate the Storage and Disposal section under the last directions paragraph (Non-Perishable Bulk Stored Raw Agricultural Commodities).
4. Delete the headings "General Directions" and "Directions for Application."
5. Delete "for use in control of resistant and non-resistant insects" or specify resistant to what. Since this is a single active organophosphate product you cannot claim organophosphate resistant insect control.

-2-

6. Considering the intended farmer use for the Farn strip, it would be appropriate to delete the precaution "Do not place in hospital or clinic rooms, such as patients rooms, wards, nurseries, operating or emergency areas. The remaining items may be retained because of the claimed site "Homes."

Please submit five copies of the final printed labeling before you release the product for shipment.

A stamped copy of the label is enclosed for your records.

The revised formula statement is acceptable and has been added to the product registration file.

Sincerely yours,

George T. LaRocca
