DISPENSES  
 SIMULTANEOUSLY

**INSECTICIDE-LIQUID  
 FUNGICIDE - DUST**

for **FLOWERING PLANTS**

Contents Under Pressure.

Remove protective cap. Direct nozzle toward target, press button down with fingertip and spray short bursts from 1 foot distance. Cover evenly but sparingly. Excessive applications may cause plant injury. Spray when air is still and foliage dry. For best results hit insects with spray. Start applications before insects or diseases appear and continue throughout the growing season at 7 to 10 day intervals.

**CAUTION**

Do not puncture can or tamper with valve. Keep containers at room temperature away from radiators, stove, direct sunlight or any place where temperature exceeds 110° F. Do not throw can into fire or incinerator. Keep away from children. Avoid breathing vapor or spray mist. Avoid contact with skin and eyes. May be a skin irritant and sensitizer. May be absorbed through skin. In case of contact wash skin with soap and water; for eyes, flush with water and get medical attention. Avoid contamination of feed and foodstuffs. Do not use on household pets or humans.

NOTICE TO BUYER: Seller makes no warranty of any kind, express or implied, concerning the handling, storage or use of this product, whether or not used in accordance with directions.
