**CAUTION** Keep out of reach of children

## DIRECTIONS FOR USE

For the control of fleas on dogs and cats, use this dusting powder thoroughly. Apply it to the animal with a hand duster, or with shaker-type dispenser.

If the animal has flea treatments may have to be applied every second or third week. For good animal care, the animal should be closely examined for fleas before retreating. If the animal is confined to an area free of fleas, one treatment may be sufficient.

Do not reuse container destroy when empty.

## FLEAS IN ANIMAL QUARTERS AND LAWNS, YARDS:

For the control of fleas in dog and cat kennels, in pens, yards, lawns and under houses, use at the rate of 1 or 2 pounds per 1000 square feet. Use a hand duster. Remove manure or debris before dusting.

## CAUTION

Avoid breathing of dust. Harmful if swallowed. Avoid contact with skin. Wash thoroughly. Avoid contamination of feed and foodstuff. Keep out of reach of children.
