

# ROYAL BRAND FERBAM DUST

A Protective Fungicide For The Control Of TOBACCO BLUE MOLD

**ACTIVE INGREDIENTS:**

Ferbam (Ferric Dimethyl dithiocarbamate) ..... 11.30%

INERT INGREDIENTS: (Including Pyrophyllite 83%) ..... 88.70%

100.00%

**CAUTION: KEEP OUT OF REACH OF CHILDREN**

**DUST TREATMENTS**

Dust Treatment—Just as spray treatments—should begin before blue mold appears.

Use a good crank-type duster, though small areas can be treated with a small puff-type duster. To make the dust flow evenly, fill the hopper not more than two-thirds full. Apply the dust early in the morning when the air is quiet and the plants are moist with dew. The usual plant bed is 5 yards wide or more, and the cotton cover must be removed to dust. Narrow beds—3 or at most 4 yards wide—with side walls that hold the cotton well above the plants can be dusted through this cover. After each treatment all exposed leaf surface should show a coating of dust.

Begin early, with plants the size of a dime, or when blue mold is first reported in the area, dust regularly, twice a week, and apply enough dust. The quantities to be applied to each 100 square yards of bed are as follows:

Applications:	Pounds
First to fourth .....	1 to 1½
Fifth to sixth .....	2 to 2½
Seventh and subsequent .....	3 to 3½

The 3 to 3½-pound rate is always used during the 2 weeks before transplanting.

When a dust application is washed off by rain while blue mold is active, repeat the treatment at once. If blue mold is seen in a bed that is being dusted, increase the rate and make three instead of two applications that week. Eight to twelve applications will be required.

**CAUTION:** May cause irritation of the nose, throat or skin. Avoid breathing dust. Avoid contact with the eyes, skin and clothing. In case of contact, flush with plenty of water. For the eyes, get medical attention. Keep away from fire and sparks.

Do not reuse container. Destroy when empty.

This product is toxic to fish. Keep out of lakes, streams, or pond. Do not apply where runoff is likely to occur. Do not apply when weather conditions favor drift from areas treated. Do not contaminate water by cleaning of equipment, or disposal of wastes. Apply this product only as specified on this label.

**NOTICE:** Follow directions carefully. Timing and method of application, weather and crop condition, mixtures with other chemicals not specifically recommended, and other influencing factors in the use of this product are beyond the control of the seller. Buyer assumes all risks of use, storage or handling of this material not in strict accordance with directions given herewith.
