30-30 Planter Box Treater

CONTAINS ARASAN AND TERRACHLOR

FOR COTTON SEEDLING DISEASE CONTROL

ACTIVE INGREDIENTS:

*Pentachloronitrobenzene	30%	
Thiram (Tetramethylthiuramdisulfide)	30%	
INERT INGREDIENTS	40%	
*PCNB	Total	100%

GENERAL INFORMATION

ROYAL BRAND 30-30 PLANT BOX TREATER is recommended as a supplement to standard seed treatment of cotton through planter box application or as a dust addition to the soil in the planting furrow. Treatment generally improves cotton stands and promotes vigor by reducing losses due to seedling diseases caused by soil fungi such as Rhizoctonia, Pythium, Thielaviopsis and Fusarium species.

DIRECTIONS

Royal Brand 30-30 Plant Box Treater either mixed with cotton seed in the planter box or as an infurrow treatment.

Plant Box Treatment--Mix dust thoroughly with seed in planter box at the rate of 1-1½ lbs per acre. Treatment is most effective for reginned and fuzzy seed, and for shallow planting of about 1 inch in depth. Before seeding, calibrate planter to determine proper seeding rate with the mixture of seed and fungicide dust. Do not use treated seed for food, feed or oil purposes.

In-Furrow Treatment--Use at the rate of 5 pounds of dust per acre, or 5.8 oz./1000 linear feet or row. Apply to the open seed furrow and to the covering soil when seed is planted, using application equipment and placement procedures such that the fungicide dust is mixed with the soil that surrounds and covers the seed. Row spacing is 38 inches.

CAUTION: Keep Out of Reach of Children

May Cause Irritation of Eyes, Nose, Throat and Skin; Harmful if Inhaled or Swallowed:

Avoid Breathing Dust

Avoid Contact With Skin, Eyes and Clothing.

In case of contact, flush skin or eyes with plenty of water; for eyes, get medical attention.

Wear protective clothing and a respirator when loading the spreader or duster.

The consumption of alcoholic beverages increases the possibility of harm.

Do not reuse empty container. Destroy by burying with waste or burning. Stay out of smoke or fumes.

Do not allow the feeding or grazing of cotton foliage by livestock. Do not plant any root crop not registered for PCNB on PCNB treated soil.

This product is toxic to fish. Keep out of lakes, streams, or ponds. Do not contaminate water by cleaning of equipment, or disposal of wastes. Apply this product only as specified on this label.
