5% ROTENONE

ACTIVE INGREDIENTS

Rotenone	5.00%
Other Cube Resins	10.00%
Inert Ingredients	85.00%

CAUTION: Keep Out of Reach of Children

DIRECTIONS FOR USE:

For control of carp in farm ponds use at the rate of 2 - 3 lbs, per acre foot of water. Pump over water surface or bubble through underwater lines.

DETERMINATION OF ACRE FEET

- The term "acre-feet" designates a unit of volume having an area of one acre and a depth of one foot.
- To determine acre feet
 - Make a series of transects across the water to be treated and sound with a weighted line or pole marked in inches and feet. Add the sounding measurements and divide by the number of soundings to determine average depth.
 - Multiply average depth times total surface area to find acre feet to be treated.
- POWDERED MIXTURE** — Sold in varying concentrations. Use the following formula to determine application rate:

Pounds to apply = Acre feet x ppm Rotenone desired x 2.7
Percent Rotenone in the formulations.

METHOD OF APPLICATION

- LIQUID MIXTURE** — Pump over water surface.
- POWDERED MIXTURE** — Place powder in burlap sack and trail behind motor boat or premix with water and treat as liquid mixture. When treating deep water weight bag and tow at desired depth. Knead bag frequently.

RESTOCKING AFTER TREATMENT

- Wait 2 to 4 weeks after treatment.
- Place a sample of fish to be stocked in wire cages in the coolest part of the treated waters. If the fish are not killed within 24 hours, the water may be restocked.

SPECIAL INSTRUCTIONS — Water alkalinity, temperature, and turbidity are usually different for each location. Because these factors change the effectiveness of the piscicide, consult your State or Federal Fish and Game representative before use to determine the correct concentration of this product needed for the type kill desired.

CAUTION:

Harmful if swallowed or absorbed through skin. Avoid contact with skin. Avoid breathing dust. Wear clean clothing.

Do not reuse empty container. Destroy it by burying with waste or burning. Stay away from smoke or fumes.

This product is toxic to fish. Keep out of lakes, streams, or ponds. Do not contaminate water by cleaning of equipment, or disposal of wastes. Apply this product as specified on this label.

NOTICE: Follow directions concerning timing and method of application, mixtures with other chemicals not specifically recommended, and other influencing factors in the use of this material are beyond the control of the seller. Buyer assumes all risks of use, storage or handling of this material not in strict accordance with directions given herewith.
