

CRABGRASS CONTROL GRANULAR

(For Late Winter and Spring Control)

ACTIVE INGREDIENTS:

Technical Chlordane* 20%
INERT INGREDIENTS: 80%

Total 100%

*Equivalent to 12% Octachloro-4,7-Methanotetrahydroindane
and 8% related compounds

CAUTION

KEEP OUT OF REACH OF CHILDREN

Harmful if swallowed. Avoid inhalation of dust. Avoid contact with skin. Wash hands after using. Avoid contamination of feed, foodstuffs, cooking utensils. Empty containers should be disposed by punching holes in them and burying with wastes or by burning (keep out of smoke). Apply this product only as specified on this label.

This product will kill fish and wildlife. Keep out of any body of water. Birds feeding on treated areas may be killed.

DIRECTIONS

This Crabgrass Control in granular form is formulated to suppress crabgrass seedlings before germination or sprouting occurs. It is for use as an early season preventive treatment and is not effective on actively growing crabgrass plants.

Although this product is primarily intended for crabgrass control, it also helps control certain soil insects, white grubs, chiggers and ants.

For best results make thorough and overall applications. Apply to established lawns anytime in late winter or early spring before third or fourth spring mowing. Application can be made to either dry or wet lawn foliage. On newly fall planted lawns, delay treatment until after the first mowing. Since this product is not a soil sterilant, it is not intended for use on seedbeds. Apply only to established lawns. Wait at least 2 months after using CRABGRASS CONTROL before sowing any grass seed. NOTE: Do not pull out dead crabgrass plants. Moisture will cause them to decompose. 1 lb. treats 75 sq. feet, 5 lbs. treats 725 sq. feet, 10 lbs. treats 1450 sq. feet. Apply on a calm day to avoid wind drift. Make application very even by sprinkling in the lawn or over a cloth shaker can with no skips or misses. It is suggested that the area be covered twice, each coverage must be at half dose, the second time at right angles to the first to insure thorough coverage. NOTE: Keep children or pets off treated lawn area until the material has been washed into the soil by watering or rain. Do not treat areas where children or pets commonly feed, roam, or rest.

NOTICE: See label for terms and conditions. Limited to the terms of the label and not to be used in any manner which is prohibited by law or which may be injurious to the user or the public.
