*CIODRIN[®] Insecticide © Shell Chemical Company

CAUTION

KEEP OUT OF REACH OF CHILDREN

Avoid prolonged or repeated inhalation of dust and contact with skin. In case of contact with skin or eyes, flush with plenty of water; for eyes get medical attention. Keep away from open flame. Wash thoroughly with soap and water after handling and before eating or smoking. Do not contaminate feed, water, or foodstuffs. Do not contaminate any body of water, by direct application, cleaning of equipment, or disposal of wastes or containers. If swallowed, induce vomiting immediately and get medical attention. Atropine is antidotal.

DESTROY USED CONTAINERS: Do not re-use for any purpose. Destroy container by burning or burying in an isolated area. If burned, keep out of smoke.

GENERAL DIRECTIONS

3% CIODRIN[®] Insecticide is a specially prepared ready-to-use livestock dusting powder suitable for use in conventional hand and power dusters. No feed-off period is required when used on animals

being fed for slaughter. Do not treat calves under 6 months of age. Brahman cattle should not be treated as they may show hypersensitivity to organic phosphates.

USE AND DIRECTIONS FOR APPLICATION

DUSTING POWDER

For the control of horn flies on beef and lactating dairy animals, apply 1 to 2 heaping tablespoonsful to the backline of the animal, covering in addition the poll, neck, and upper portions of the sides. Repeat above application as necessary to maintain control, but not more often than once every 14 days. Wash hands thoroughly after use.

For the control of lice on dairy and beef cattle treat animals thoroughly. If required, repeat this thorough application in 3 - 4 weeks.

**DUST BAG — ANIMAL
DUSTING STATIONS**

For control of horn flies, and as an aid in the control of lice, on dairy cattle and beef cattle, 3%

CIODRIN Insecticide Dust may be applied daily when application is made with Dust Bags. To prepare dust bags for animal use, place 4 - 8 pounds of 3% CIODRIN Insecticide Dust in cotton cloth or double burlap bags and suspend bags near mineral or salt blocks, in alleyways leading to or from animal building, or dairy barns. Dust bags may also be suspended in livestock holding pens, feed lots, and loafing sheds where possible. Protect bags from weather by placing them under shelter.

NOTICE: Seller's guarantee shall be limited to the terms of the label, and subject thereto the buyer assumes all risk to persons or property arising out of use or handling and accepts the product on these conditions.
