**CAUTION:** Keep out of reach of children, pets, and domestic animals. See back panel for additional cautions.

2TAR

★ ★ NEAT ★ ★ CLEAN ★ ★ EASY TO USE

Handy way to kill mice in your house. Nothing to measure. Nothing to pour. Just place the bait packet wherever you find signs of mice. No muss. No fuss. Bait packets slide under cabinets, into tight corner and narrow openings quickly and easily. (See directions for rats and mice on back panel.)

Mice like it—Each bait packet contains pellets composed of mixed grain that mice like to eat. Makes bait so enticing that mice gnaw right through the packet and actually "eat themselves to death."

## RIDZ RAT and MOUSE KILLER BAIT PACKETS

★ ★ NEAT ★ ★ CLEAN ★ ★ EASY TO USE

A specially blended Rat and Mouse Killer in new bait packet form — neat and easy to handle. Nothing to measure.

**For Mice:** Place packets at 8 to 12 feet intervals where mice or signs of mice have been seen. Make a tear in the packet to help hasten acceptance by mice.

**For Rats:** Place 1 or 2 packets of bait (4 to 8 ounces) next to burrows, in runways, or where rats are accustomed to feed.

See individual Bait Packets for complete use directions.

**CAUTION**  
**KEEP OUT OF REACH OF CHILDREN.**  
**Pets and Domestic Animals.**  
See Individual Bait Packet for additional caution statements.
