How Rose, Flower, Shrub Food with Systemic Insecticide Works

Rose, Flower, Shrub Food with Systemic Insecticide is a scientifically prepared plant food especially formulated for rose feeding combined with a highly effective systemic insecticide. When applied according to directions, Rose, Flower, Shrub Food with Systemic Insecticide will provide the proper amount of plant food and systemic insecticide necessary to maintain strong, healthy roses by reducing the damage normally caused by sucking insects (aphids, leafhoppers, spider mites, and thrips) and certain chewing insects. The insecticide in Rose, Flower, Shrub Food with Systemic Insecticide is taken up by the roots and moves in the sap stream to all parts of the plant (systemic action) — even into the new growth. Here it stays on guard to kill insects as they feed on the plant.

Rose, Flower, Shrub Food with Systemic Insecticide when used as directed kills:

| | | |
|---------------------|---------------|--------------|
| Aphids (plant lice) | Leafhoppers | Spider mites |
| Birch leaf miner | Mimosa weevil | Thrips |
| Holly leaf miner | Pine tip moth | White flies |
| Leaf bug | | |

on roses and other shrubs and flowers.

In addition to control of insects for 6 weeks, Rose, Flower, Shrub Food with Systemic Insecticide provides your roses with the proper amount of plant food necessary to maintain strong healthy plants.

WARNING: Poisonous. May be fatal if swallowed. May be absorbed through the skin, poisoning may occur as the result of exposure. Avoid contact with skin, eyes, or clothing. Do not breathe dust. Keep out of reach of children. Wash hands thoroughly after handling. Keep children and pets away from treated area until product is worked and watered into soil and treated area is completely dry. Food utensils should not be used for food purposes after using to measure this or any insecticide. Do not apply broadcast to lawns. Do not re-use this container for ANY purpose. When empty, burn the container, stay out of smoke, bury all ashes and residues. In case of spillage, use a trowel or shovel to pick up and put into proper place in plantings. Use this product only in accordance with label directions. Do not apply an overdose as plant injury may result. Do not contaminate feed or foodstuffs. Keep out of any body of water. Fish may be killed.

Contains an organic phosphate insecticide, inhibits cholinesterase.

IF SWALLOWED, CALL PHYSICIAN. Antidote

When empty, burn the container, stay out of smoke, bury all ashes and residues. In case of spillage, use a towel or shove to pick up and put into proper place in plantings. Use this product only in accordance with label directions. Do not apply an overdose as plant injury may result. Do not contaminate feed or food tuffs. Keep out of any body of water. Fish may be killed.

Contains an organic phosphate insecticide, inhibits cholinesterase.

IF SWALLOWED, INDUCE VOMITING AND CALL A PHYSICIAN. Antidote: Atropine sulfate and/or 2-PAM.

NOTICE: Seller's guarantee shall be limited to the terms of the label, and subject thereto the buyer assumes any risk to persons or property arising out of use or handling and accepts the product on these conditions.

DIRECTIONS

First carefully read warnings and directions for use!

ON ESTABLISHED ROSES: For established plants, spread 1 3/4 cup of Rose, Flower, Shrub Food with Systemic Insecticide (5 level tablespoonfuls) evenly around the base of each plant and work into 1 to 2 inches of soil. Water thoroughly.

WHEN PLANTING NEW BUSHES: Place 2 1/2 level tablespoonfuls in the transplant hole with the soil as you fill. Mix additional 2 1/2 level tablespoonfuls in the top 2 inches of soil. Water thoroughly. Do not apply additional fertilizer for about 6 weeks.

ON FLOWERS, BULBS, AND BEDDING PLANTS: Apply 2 pounds Rose, Flower, Shrub Food with Systemic Insecticide per each 100 square feet (5x20 feet) of bed area. Work into top 1 to 2 inches of soil. Plant seed or set plants and water thoroughly. Do not apply additional fertilizer for about 6 weeks.

ON POTTED PLANTS: Apply 1 level teaspoonful per 6-inch pot by punching a number of small holes into the pot soil with a pencil. Pour granules into the holes and thoroughly water the plants.

ON ORNAMENTAL SHRUBS: Apply 2/3 cup (4 ozs.) of Rose, Flower, Shrub Food with Systemic Insecticide for each foot of shrub height (2 cupfuls for a 3-foot high shrub). Distribute the required amount evenly from the base to the drip line on all sides of the plant. Work into the top 1 to 2 inches of soil and water thoroughly.

WHEN TO USE ROSE, FLOWER, SHRUB FOOD WITH SYSTEMIC INSECTICIDE: Applied when plants have about 1 inch of new growth in the spring and at 6-week intervals through the summer, Rose, Flower, Shrub Food with Systemic Insecticide will provide the proper amount of plant nutrients to maintain strong healthy plants. Each application will give at least 6 weeks control of the pests listed.
