GENERAL INFORMATION

A multi-use insecticide repellent formulation which may be applied to animals to protect them from biting and nuisance flies, mosquitoes and gnats.

A space spray giving quick knockdown and kill of flies, mosquitoes and gnats in barns.

DIRECTIONS FOR USE

Horses—This will kill horse flies, stable flies, house flies, hornflies, face flies, mosquitoes and gnats on the animal at the time of application.

Use a heavy cloth or sponge to wipe spray on animal. Apply just enough spray to wet the coat of the animal but not enough to soak the hair to protect against attack and annoyance of these insects. Repeat at daily intervals as necessary to keep animal free of flies.

FLY WIPE-A-WAY

(WIPE SPRAY FOR HORSES)

DIRECTIONS FOR USE

Face Flies: Use a heavy cloth or sponge to wipe spray on the faces of horses. Apply daily or as needed to those areas of the animal where face flies rest, such as the face, withers and sides where saliva may occur from head tossing.

Barns: Apply as a mist spray in barns to knockdown and kill stable flies, house flies, face flies, mosquitoes and gnats. Close all windows and doors before spraying and keep them closed for 10-15 minutes after the room has been filled with a light mist. **NOTE:** Do not remain in treated areas and ventilate the area after treatment is completed.

NOTICE: Seller's guarantee shall be limited to the terms of the label, and subject thereto the buyer assumes any risk to persons or property arising out of use or handling and accepts the product on these conditions.
