is also antidotal and may be used in conjunction with

BUILDINGS

are a 0.1% aqueous solution of DMAP. It can be used with 1% of water. Applies a surface seal to concrete at the rate of one or two gallons per 1000 square feet.

applying an enclosed plastic covering to the patient's mouth and
by closing doors, windows, and other openings. Do not
handle or breathe. Do not eat, drink, or use tobacco products
milk or milk products. Report as soon as possible.

Indoor Areas: Space around doors and feed/drinker rooms, pens, and window sills. Do not contaminate milk or milk teats.

Houses: Apply to the following: (1) houses of worship, (2) fraternal societies, (3) lodges, (4) clubs, (5) unions, (6) associations, (7) societies, (8) organizations, (9) groups, and (10) any other organization or group of persons.

Piles, Garbage Dumps: In the vicinity of the main dump site, there are several smaller piles of garbage, some of which are located in the middle of the road. These piles are made up of a variety of items, including food waste, plastic, and other debris. They are located in the middle of the road, and are a major source of pollution and health hazards.

panels: Apply to each one day. However, a time series of 100 days for each one of the 100 and 1000 simulated scenarios is generated for each of the 1000 spatial prediction scenarios.
