

## DIRECTIONS FOR USE

ONE OUNCE MEASURING SCOOP ENCLOSED

A special powder formulation for planter box treatment of BEANS, CORN, PEAS, SOYBEANS prior to planting, to aid in the protection of the germinating seeds and young seedlings against injury by seed corn beetles, seed corn maggots, wireworms, damping-off, seed rots, seedling blights and fungus diseases of seeds and seedlings.

**BEANS, CORN, PEAS, SOYBEANS** — Planter Box Application: Use 3 ounces per bushel of seed in the planter box as a seed treatment prior to planting. Apply to seed as planter box is being filled. Mix thoroughly with seed in the planter box as follows — fill the planter box one-half full of seed then treat with one-half of desired amount of product. Mix well by stirring with a stick or paddle until color is imparted to seed. Add remaining seed to the planter box and cover with balance of product. Mix thoroughly again. Best protection will be obtained where every seed is coated with the chemical. Excess product flows with seed into the furrow giving additional protection against soil borne diseases.

Under some circumstances SEED PROTECTANT may affect the rate of seeding. It is necessary for the user to check planting rate frequently to assure himself that the desired planting rate is being obtained.

**\*\*Note:** SEED PROTECTANT has been mixed with graphite as an aid in increasing the flowability of seeds and lubrication of equipment.

Keep planter plates clean. Grease and oil on plates can cause clogging.

**WARNING:** May be fatal if swallowed. May be absorbed through the skin. Do not breathe dust. Do not get in eyes, on skin or on clothing. Wash thoroughly with soap and water after handling. Do not contaminate food, feed or water. Keep out of reach of domestic animals. Do not use on livestock, household pets, or humans.

**ENVIRONMENTAL HAZARD:** This product is toxic to fish, birds and other wildlife. Birds feeding on treated areas may be killed. Treated seeds exposed on soil surfaces will be hazardous to birds and other wildlife. Keep out of lakes, streams or ponds. Do not contaminate water by cleaning of equipment or disposal of wastes. Apply this product only as specified on this label.

Treated seed should be labeled as follows: TREATED SEED — DO NOT USE FOR FOOD, FEED or OIL. Empty bags which contained treated seed should not be re-used for packing feed or food.

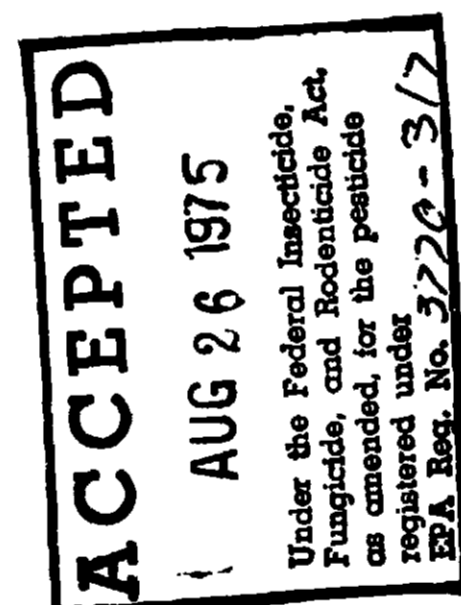

**CONTAINER DISPOSAL:** Destroy container by punching holes in it and burying with wastes, or by burning. Stay out of smoke and fumes.

**NOTICE TO USER:** Seller's guarantee shall be limited to the terms of the label, and subject thereto the buyer assumes any risk to persons or property arising out of use or handling and accepts the product on these conditions.
