

NIGHT CRAWLERS

NIGHT CRAWLERS—sometimes called red worms or fish worms—can cause considerable damage to lawns in some areas. The unsightly mounds of soil thrown up by night crawlers creates a rough uneven lawn. This condition usually occurs during the first spring weather when earthworms are most active near the surface.

Apply EARL MAY GARDEN ROTENONE DUST at the rate of 1 lb. to 250 square feet of lawn. Sift from shaker top can or use a small hand duster. Water the material into the ground. For best quick results make application just before a spring shower when night crawlers are coming to top for feeding.

PETS

Effective against fleas, lice and ticks on ponies, dogs and cats. Sift the Rotenone Dust into the hair and rub in by hand.

USES

EARL MAY GARDEN ROTENONE DUST gives good control of a wide variety of both sucking and chewing insects infesting vegetable and flower gardens. Non-woolly aphids

(plant lice), bean leaf beetles, flea beetles, imported cabbage worm, cabbage looper, purple backed cabbage worm, sawfly larva, spittle bug, asparagus beetle.

EARL MAY ROTENONE DUST may be used with safety on flowers, ornamental plants and cabbage, cauliflower, Brussels sprouts, tomatoes, peaches, radishes, cucumbers, squash, cucumbers, melons and asparagus. Will not injure tender plants during

DIRECTIONS

For best results use as a dust applied with small hand duster, or sift lightly from this shaker type can. Dust underneath and top of foliage thoroughly. Apply to both plants and insects. Begin application when plants are well established or when new growth appears. Repeat every 7 to 10 days or as often as necessary, whether insects are present or not to help prevent infestation. Repeat after heavy rains. Dust when air is calm.

No mixing—ready to use. Dust plants thoroughly, covering all insects to be controlled. May be used as a wet spray. Stir & mix 3 to 4 tablespoonfuls with enough water to make a paste first, then add water to make 1 gallon of spray.

CAUTION

Avoid breathing dust. Keep out of reach of children.

Do not apply to vegetable crops within one day of harvest.

Do not reuse empty container. Destroy by burying with waste or burning. Stay away from smoke or fumes.
