MALATHION 5-G

USE IN FOOD PROCESSING PLANTS

1. PREPARATION OF SOLUTIONS: For use in other than food processing plants, in which food is not handled, prepared under conditions of good hygiene.

2. PREPARATION OF RESISTANT POPULATIONS: Roaches, Ants, Silverfish, Mites, Crickets, Earwigs, Spiders, Thrips.

3. PREPARATION OF SOLUTIONS: Includes receiving, storing, (e.g., cold, frozen, raw), packaging (canning, bottling, wrapping, boxing), preparing (cleaning, slicing, cooking, grinding), edible waste storage, enclosed processing systems (mills, dairies, edible oils, syrups).

4. PREPARATION OF SOLUTIONS: Includes spraying in small amounts to cracks and crevices where insects hide or through which they may enter buildings. Includes expansion points, spaces between equipment and floors, openings leading to voids and hollow spaces in walls, equipment and bases.

5. PREPARATION OF SOLUTIONS: Includes garbage rooms, lavatories, floor drains (to sewers), entries and vestibules, offices, locker rooms, boiler room, garages, mop closets, and other areas (after cleaning or bottling).

6. PREPARATION OF SOLUTIONS: Includes spraying or applying with a paintbrush to food areas, around water pipes, surfaces behind and under sinks, lockers, tiles, pipes, and similar areas where insects may hide or through which they may enter.

PARKE-DAVIS CHEMICAL CO., INC.

CAUTION: COMBUSTIBLE MIXTURE

DILUTION DIRECTIONS:

Dilute 6 fluid ounces of this concentrate to one gallon of water with oil to make a 3% Malathion oil solution.

DIRECTIONS FOR USE:

To control Roaches, Ants, Silverfish, Spiders, Crickets, Mites, Earwigs inside homes, dairies, food processing plants, apply the material, made up above containing 3% Malathion, by means of a coarse spray to window sills, baseboards, drainboards, under sinks, stoves and to other areas frequented by insects. Spray surfaces until wet. Care should be taken to thoroughly treat all cracks and crevices. Repeat applications as necessary.

CAUTION

Harmful if Swallowed

Avoid breathing spray mist. Avoid contact with skin. In case of skin contact wash thoroughly with soap and water. Avoid contamination of feed, foodstuffs, water and food utensils.

Rinse equipment and containers and dispose of wastes in non-cropland away from water supplies. Containers should be disposed of by punching holes in them and burying with water seal or burning. Keep out of reach of children.
