

MERCURY INDUSTRIAL INSECTICIDE 455

Active Ingredients: 100.00%

Petroleum Hydrocarbons.....98.60%
 *Technical Piperonyl Butoxide.....10.50%
 **N-ethyl-Bicycloheptene Carboximide.....10.90%

For control of FLYING INSECTS: MOSQUITOES, GNATS, BEES, WASPS, HORNETS, YELLOW MEAL MOTHS, ANGOUMOIS GRAIN MOTHS, MEDITERRANEAN FLOUR MOTHS, FRUIT FLIES, CIGARETTE BEETLES, FLYING CLOTHES MOTHS. To control these and similar insects fog this material at the rate of 1 ounce per 1000 cubic feet. Turn off all ventilating equipment, close all windows and doors. Keep treated area closed for at least 10 minutes. For small flying insects (flies, mosquitoes, gnats) close up the infested area and fill it with mist. It is frequently desirable to sweep up and destroy the fallen insects at the end of the 10 minute period. When CLOTHES MOTHS are present it is also advisable to thoroughly spray all articles that such insects may attack paying particular attention to seams and folds as well as thoroughly spraying the interior surfaces of storage containers, such as closets and trunks, in order that moth larvae may be killed.

CRAWLING INSECTS:

Exposed stages of COCKROACHES, WATERBUGS, SILVERFISH, FIREBRATS, CRICKETS, MILLIPEDES, CENTIPEDES, SOWBUGS, ANTS, CRICKETS, SPIDER EGGS, MEAL WORMS, CADELLES, CONFUSED FLOUR BEETLES, SAW-TOOTHED GRAIN BEETLES, SPIDERS, WEEVILS, DERMESTIDS.
 For space spray-fog 455 at 2 ounces per 1000 cubic feet.
 As a contact spray-apply 455 directly on insects or wherever they are seen. Repeat as necessary.
 For COCKROACHES, WATERBUGS, AND SILVERFISH thoroughly and repeatedly spray infested area, directing spray into cracks and other hiding places. Try to hit as many insects as possible during spraying. Repeated applications are necessary for control.
 For FLOUR and GRAIN PESTS clean all farinaceous material out of bins, elevator boots and spouts and apply 455.
 As a RESIDUAL SPRAY apply 455 as a coarse wet spray at the rate of one gallon per 1000 square feet or to the point of run-off using a pressurized sprayer. Thoroughly treat all harborages and breeding areas, cracks, crevices, under sides of work tables, behind sinks, walls, window and door frames, elevator shafts and pits, behind and under equipment, laundry chutes, garbage areas, warm dark moist areas, void spaces and shelves. Repeat as necessary.
 REPELLENT ACTION may be developed by regular weekly spraying with 455.
