

Dilute 7 fluid ounces of this concentrate to one gallon with water to make a 3% Malathion water emulsion. For Maximum Effectiveness Prepare Emulsions Fresh Each Day

To control Roaches, Ants, Silverfish, Spiders, Clover Mites, Crickets, Larwigs inside homes, dairies, and food processing plants, apply the material, made as above containing 3% Malathion, by means of a coarse spray to window sills, baseboards, drainboards, under sinks, stoves and to other areas frequented by insects. Spray surfaces until wet. Care should be taken to thoroughly treat all cracks and crevices. Repeat applications as necessary.

For the protection of stored grains, such as wheat, oats, rice, corn, rye, barley, grain sorghum and field or garden seeds, against confused flour beetle, rice weevil, granary weevil, sawtoothed grain beetle, flat grain beetle, red flour beetle, rusty grain beetle, lesser grain borer, Indian meal moth, and for control of cereal leaf beetles, apply Malathion 57 E Premium liquid as follows.

RESIDUAL SPRAY - BEFORE STORING GRAINS: For a residual wall, floor and machinery spray in grain elevators, in treating truck beds, box cars and ships' holds before loading grain, apply 1 gallon of Malathion 57 E Premium per 25 gallons of water making thorough application. Before applying spray, clean elevators, box cars, etc. thoroughly. Remove and burn all sweepings and debris.

GRAINS GOING INTO STORAGE: Apply 1 pint of Malathion 57 E Premium in 25 gallons of water per 1000 bushels. Apply as the grain is being loaded or turned into final storage.

AFTER GRAINS ARE STORED: To protect stored grains from attack by Indian meal moth, apply Malathion 57 E Premium to the surface of clean or uninfested grain at the rate of 1-2 pint in 1-2 gallons of water per 1000 square feet of grain surface area. Apply the spray evenly over the surface of the grain. Apply immediately after grain is loaded into storage and repeat if necessary.

BOX CAR SPRAYING: Residual spray. Box cars for loading and transporting bagged flour and packaged cereals. For the control of confused flour beetle, rice weevil, granary weevil, sawtoothed grain beetle, flat grain beetle, red flour beetle, rusty grain beetle, lesser grain borer, Indian meal moth and mite pests infesting

Additional Cautions on Side Panel

empty box cars into which cereals are to be loaded and thion 57 E Premium as follows:

1. Clean the box car thoroughly, burn all sweepings and
2. Spray walls and floor to either 1 gallon of Malathion 57 E Premium in 19 gallons of water, or one gallon of Malathion 57 E Premium in 19 gallons of water, plus one part aromatic solvent.
3. Let the sprayed box car stand with doors open until the spray has dried.
4. Line the walls and floor with kraft paper before loading.

FIELD AND GARDEN SEEDS: can be protected against the dosages of 1-2 pint of Malathion 57 E Premium in 25 gallons of water per 1000 bushels. Malathion may be used under quarantine instructions.

Avoid prolonged breathing of longed or repeated contact. Avoid contamination of milk equipment, water and food of reach of children. Do not use in rooms.

empty box cars into which bagged flour and packaged cereals are to be loaded and transported apply Malathion 57 E Premium as follows

1. Clean the box car thoroughly, then remove and burn all sweepings and debris.
2. Spray walls and floor to the point of runoff with either 1 gallon of Malathion 57 E Premium in 25 gallons of water, or one gallon of Malathion 57 E Premium in 19 gallons of deodorized kerosene. (The deodorized kerosene solution should be made up of 4 parts of kerosene type solvent plus one part aromatic hydrocarbon type solvent)
3. Let the sprayed box car stand empty with the doors open until the spray has thoroughly dried.
4. Line the walls and floors of the box car with kraft paper before loading.

FIELD AND GARDEN SEEDS: Field and garden seed can be protected against the above grain pests with a dosage of 1-2 pint of Malathion 57 E Premium in 1-2 1/2 gallons of water per 500 bushels of seed.

Malathion may be used under the requirements of the Khapra beetle quarantine, where water or diesel oil emulsions are indicated, as prescribed by the current quarantine instructions.

Avoid prolonged breathing of spray mist. Avoid prolonged or repeated contact with skin. Wash thoroughly. Avoid contamination of feed, foodstuffs, milk, milk equipment, water and food utensils. Keep out of reach of children. Do not use in milk processing rooms.
