KILLS MOTHS

Thoroughly clean or brush articles to be stored. Remove all lint from the block. Hang block above stored articles in tightly sealed closet, garment bag or storage container. Use one block for each 20 cubic feet of space. If storage container is opened occasionally, hang additional block or blocks and re-seal container.

TO FRESHEN CLOSETS:
Just hang in closets after removing all of the cellophane. It is advisable to keep block from touching fabrics since it contains fragrant perfume oils that may stain just as your perfume may do.
